For His Excellency Dr. Masoud Pezeshkian
The Honorable President of the Islamic Republic of Iran
Teheran - Iran

Antwerp, Sunday 19 April 2026

Subject: Attachment to minutes no.: AN.45.1.B.010191/2022 - GF of 27/01/2022
Ref TPI: **OTP-CR-322/13**

What was the price the Iranian delegation paid to **Countess Noelle d'Huydewater** from **Nijmegen for a visa to come to the Urban Summit in Brussels** from 12 to 15 June 2023 ?

How much did the Iranian delegation pay for a visa for the Urban Summit in Brussels?

Your Excellency Masoud Pezeshkian,

Bismillah El Rahaman Errahim,

First I am presenting my condolences for the highly regretted death of His Excellency President Ebrahim Raisi and His Excellency Foreign Minister Hossein Amir-Abdollahian, may their souls rest in peace.

As I don't believe in coincidence, I would like to share two files concerning terrorists using the aeronautics and space industry for achieving assassinations without any physical intervention on their behalf, by taking over the control of an aircraft. Please include this possibility in the investigation of the crash as traces of remote control steering can be found in the black box.

If ever they find anything, I would place it in the context of the Schengen visas for the Iranian delegation led by the Honourable Mayor of Tehran, Mr Ali Reza Zakani, to attend the Urban Summit in Brussels. I would go even further and ban my people from travelling to Belgium. Those who do, will be jailed.

If a simple travel visa for Europe — particularly Belgium — costs people their lives, we should stop doing business with that country altogether. We wouldn't need their visas

anymore. I think that's the right way to deal with racist crooks who only seek to make lots of money with counterfeit. Magrexit is an extension of this approach.

Learn more on how aerospace, migration and fake visas come together:

The hijackers of 11 September 2001 were probably illegal immigrants from Saudi Arabia, the United Arab Emirates, Egypt, Lebanon and Yemen who had followed Belgian Coyotes (français)

Le Boeing CT-43A de l'US Air Force s'est écrasé à Srebrenica le 3 avril 1996 parce que quelqu'un était jaloux du fait que les Noirs aimaient skier ou bien ils cherchaient simplement du cuivre de cette façon

I did not know that [Ms Marleen Seymour](#) brought the travel visa to the client herself, until I started researching the visa affair for 12 Iranian officials who came to Brussels to attend the Urban Summit in June 2023.

Someone wanted to use that against [Her Excellency Minister Hadja Lahbib, then the Belgian Minister of Foreign Affairs](#). They wanted to make her lose her job, to force her resignation, and to damage the image of Belgians of migrant origin, so that nobody with a migrant origin would ever be allowed in responsible positions at the government.

For more I am referring to the presentation below. The presentation also included the Qatar Gate which also involves Foreign Affairs, and Minister Lahbib's foreign colleagues from Qatar, Italy Greece and Morocco being attacked with similar false accusations of financial corruption of non-European countries of Members of the European Parliament. The set-up is intended to influence public opinion with political and financial scandals that the Enemy carried out first himself or herself with the plan to put the blame on someone from the aforementioned countries.

They're used to it working out for them, especially in Belgium, where the law takes the offender's side and fines the victim, probably to divide the money between them, and that's where they end up. It's a racketeering operation. One wants a house, another wants a big car, and yet another wants capital to develop his business. That is what they are looking at. They don't care about the damage caused to innocent people. When you are a Moroccan, they feel like you deserve to be treated like this. We are being punished constantly and I don't see when in the history of mankind Morocco has posed a problem to the kingdom of Belgium. We don't have a common path with Belgium for Belgium to say that we have done them wrong. We are persecuted in Belgium and we don't know why they are so angry with the people of Morocco.

As you can see, as the Minister of Foreign Affairs happened to have Moroccan parents, they put her on the grill to punish her for who she is. It is with this in mind that I followed the attempts to discredit Her Excellency Hadja Lahbib and the [Qatar Gate](#).

(pub) The Magrexit Step by Step (français - Nederlands)

Vanilla Finance and Magrexit rationale applied on Belgian Social System (EN - NL - FR - ES)

The other link is the big sums of money as 1.6 million Euro in cash was seized by the Belgian Police leading the investigators, perhaps the European Parliament as a whole, the European Commission and the Council of Europe, to believe the corruption allegation particularly from a rich country like Qatar. It looks true for as long as no other explanation is given to the question where the money comes from. We will be answering that question, to prevent them from saying “you see, I told you, all these oil sheiks corrupt everyone”.

“So, let’s fine Qatar, so that we get that money, ha ha ha”

The 1.6 million Euro comes from sales of **forged Schengen visas to foreigners** and thus it comes from crime, like the one in which the mayor of Tehran and his delegation are **victims**.

The 1.6 million Euro was generated by the sale of forged visas and identity documents. That could explain the risk money in banknotes found in a suitcase which they used to get the Vice-President of the European Parliament, Her Excellency Eva Kaili sacked.

I'm not saying that the case of the fake Schengen visa to the Iranians generated the funds for [Qatar Gate](#), because [Qatar Gate](#) started before the fake Schengen visa to the Iranians. I'm trying to explain that the sale of fake visas on a global scale, to everyone from diplomats to illiterate workers looking for better job opportunities in a more prosperous country, very quickly produces large amounts of cash without any invoices or bank involvement, that no one is interested in keeping, but that is used to fund crimes like bombings and plots like [Qatar Gate](#), where it is believed by the general public that Qatar and Morocco were involved in the bribery of members of the European Parliament to further their policies.

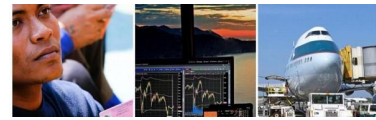

With fake visas and fake identity cards, they are able to raise half a billion Euro in three days. We have collected cases in the USA, where the same gang which targets, Qatar, Italy, Greece and Morocco at the European Parliament, sold masses of fake US identity cards or passports to undocumented migrants to vote for Mr Joe Biden in 2020, the year when President Donald Trump lost the elections. He was right that the votes were rigged and there was nothing he could do about it because the perpetrators use fake identities and they live in another country.

This Is Not Fake News.
This Is On How Votes
Are Rigged In The USA
(español - français)

A young clandestine migrant from British Guyana bought a fake US ID card with his real name for USD 2,500 and received a food voucher to vote for Democrats. Houston police arrested the young man only 4 hours and 30 minutes after that purchase (français)

For the Chief Justice of the Supreme Court of the USA: Food vouchers handed out by a Belgian gang in North Carolina to vote for President Donald Trump were used to vote for the Democratic candidate

As the dossier concerning the fake visas is far reaching and affects the whole planet. This is why Iran should take the lead and help solve the issue for everyone in the world.

There is no question of having the social system of a small country in the world being supported with this kind of income which is generated from people on the run from wars and other human catastrophes, and seeking safety

Allow me to share an example a Belgian social system, which is Centrum Algemeen Welzijn (CAW) and an example of a very big business of which the capital investment consists of the fees that the clandestine migrants pay to the smugglers:

For His Majesty King Salman of Saudi Arabia: Ramadan Kareem. Where is Bakkerij Wouters Now? (français - Nederlands)

(PUB) Her Excellency Ursula von der Leyen, President of the European Commission: A Belgian couple from Schoten returns from Sicily. The five-day trip was possibly linked to the 'Ndragheta and the proceeds of people smuggling from Tunisia's Sfax to Lampedusa. this engineer could raise funds for

The [Qatar Gate](#) and the Urban Summit visas must have generated a lot of cash for the fake visa mafia by selling similar Schengen visas to delegations from many more countries. It would be interesting to find the other cases of countries of which the citizens and the officials are not awarded visas for Belgium easily, and given that the European Union is headquartered in this country, lots of summits are held in this country for which certain people are prepared to pay more to have a quick delivery of an entry visa. This is why Brussels is very important for the fake visa mafia.

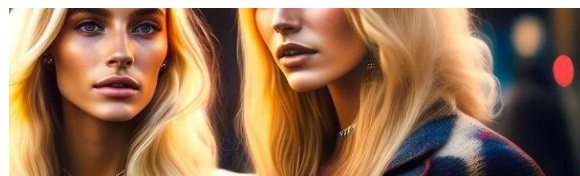

However, it was Iran that stood out, given the negative propaganda surrounding the country, especially concerning Belgian humanitarian aid worker Mr Olivier Vandecasteele, who was arrested and imprisoned in Iran during that period, and concerning Miss Mahsa Amini with her angelic appearance, who was killed by the bad treatment of the Iranian police for her scarf. How could they do such an awful thing? Iran is definitely not welcome, still they came. "If the Minister of Foreign Affairs were a native Belgium, the outcome would have been different for those Iranians "to embark" in this country..."

Both the [Qatar Gate](#) and the Schengen visas for the Urban Summit pertain to **Foreign Affairs and Diplomacy**. One case aimed to have Minister of Foreign Affairs Hadja Lahbib sacked because she is Moroccan, and the other case aimed to sack European Parliament Vice-President Eva Kaili because she is Greek.

My investigation intends to sack all the people involved in preparing bad luck for these women, made by Belgian hands and thought by an average Belgian mind. Now they feel like all the subsidies and the development aid money will go to Greece and to Morocco because of these two foreign women in those positions.

Ideally, they want to put their utterly unfriendly and highly negative people at the top of all the international organisations (in Brussels) to make those funds stay in Brussels as much as possible, to have all the other countries need hand outs from their [Red Cross and Red Crescent everywhere](#).

In these two dossiers, I demonstrate how the IFRC (the International Federation of Red Cross and Red Crescent Society in Geneva) is pension fund for all the Belgian employers and a property of a private family named de Wouters van Oplinter: They raise capital with the prostitution of other people's wives and daughters, because that activity is deadly.

For Her Excellency Ursula von der Leyen, President of the European Commission: Rabia Hamouche (80) may have worked for Henri Paul, who had a stake in every

French cabaret. Her cleaner at the ZorgBedrijf Antwerpen, Marleen Seymour, is also a cabaret owner in France. This may explain why Hamouche's pensions are under attack.

and human trafficker. He killed Penelope and Virginie Dutoît, dancers at the Folies Bergère

That is how we need to understand the gigantic efforts and investments they apply on bringing everybody down. Down is where they will go themselves.

(pub) The Magrexit Step by Step (français - Nederlands)

For His Excellency Ebrahim Raisi, the President of Iran about our request to support the Magrexit

Both the participation of an Iranian delegation to the Urban Summit in June 2023 and the Qatar Gate have at least one person in common, who is **Miss Marleen Seymour**.

Miss Marleen Seymour was in Tehran and met with Mayor Ali Reza Zakani. Further below is [the currently available AI facial recognition robot photo](#) which gives an approximate idea of how she looks, until we can offer a better version, as we are working on our facial recognition camera to capture facial traits of suspects with the darkest skin existing. Her skin is so dark that it requires a review of our imaging system to distinguish structures.

It is done with [a technology I want to take to Africa, with the help of allies like India](#), where we have everything available for improving the military equipment with such cameras. Our technology is dedicated to civil and territorial security to help defense and police force hunt for criminals wanted.

We are not taking pictures of everyone; We instruct our cameras to only hunt for people searched for by any authority, including the financial, industrial and transport authorities, when they detect the use of fake identities. The aim is to discourage and eradicate the use of fake identities. This is why we are putting cameras where we can, mostly in the big cities.

That is the legal framework under which the AI driven cameras for facial recognition will be developed as a product available under licence. For more:

(Pub) His Excellency Narendra Modi Prime Minister of India: Proposal for a joint facial recognition project with AI and Magrexit (MoU)

We are currently delving into a series of images we received this week from our facial recognition cameras in Brussels Midi Station which signaled having recognized a super heart-like face bearing “camel” as indicator. Our database classifies human facial recognition points using traits from the animal kingdom and Marleen Seymour’s gentle facial structure follows the heart-like shape like that of a camel, but she has perfect human lips.

There is confusion as the young lady from Suriname was last seen in Antwerp where she lives. This is why our verifications and decisions will take a few more days.

I found out about the modus operandi in which fake Schengen visas were sold to an Iranian delegation headed by His Excellency Ali Reza Zakani, the Mayor of Tehran, to participate in Brussels Urban Summit from 12 to 15 June 2023:

On **9 April 2023**, Marleen Seymour travelled with **Royal Air Maroc** to **Casablanca** in Morocco, perhaps to pick up the necessary forged visas, manufactured yonder in a workshop owned by **His Excellency André Azoulay, the Governor of Essaouira province**, who will soon be behind bars in the ugliest prisons of Morocco. It is just a matter of hours.

The manager of the daily activities in that workshop, such as orders and deliveries of forged identity documents, is **His Excellency Lucien Leuwenkroon, the president of the Belgium Luxembourg Chamber of Commerce**, who was given the name François Leemans at birth. He is the son of Mr Marnix de Wouters (better known in Flanders as Mr Victor Louis Leemans) and Baroness Louise Marie Löwenkron-Le Lion. So, Lucien Leuwenkroon is a member of the de Wouters family of Oplinter.

The next day, on **10 April 2023**, she left Casablanca on a direct **Emirates Airlines** flight to **Tehran**. There she was received by Mr **Dominique Dutroux**, the brother of [Marc Dutroux](#), who is the husband of Ms **Josephine-Charlotte de Wouters van Oplinter**. The couple lives in Isfahan. The husband's name in Iran is Abu Hussein. I received no local name for the wife who wears a burka. They have three children named Frédérique (male), Jean-Louis (male) and Sylvie (female).

They behave like locals only to infiltrate the Iranian banks and institutions. They are only after money, knowledge and science as Iran's people are brilliant and wealthy. They are satanic and they will bring along **the Fitna and HIV** to your country to destabilise it with chaos.

I have seen a list of a-symptomatic HIV carriers being used to substantiate claims for health benefits and social pensions because of the handicap. François Leemans (alias Lucien Leuwenkroon) is on the list (français - Nederlands)

They ultimately work for the de Wouters van Oplinter family in Belgium, and for their banks, including the World Bank and above all the International Federation of the Red Cross and Red Crescent Society. They might be running a Red Crescent agency in Isfahan to enhance their image through humanitarian aid to the poorest people in Iran, and it is by this means that they are building the social base to overthrow those in power and to defend the Red Crescent. They are there for that reason alone, and to encourage the migration of Iranians with fake visas, preferably to Europe and America, in order to eventually take over their homes and land in Iran. On that land they will have an NH Hotel under the guise of boosting your country's economy with "tourism". I am sure you understand what I mean by "tourism".

Ms Josephine-Charlotte de Wouters van Oplinter is part of the Belgian noble families. Her brother-in-law is Mr [Marc Dutroux](#) who received the reputation of the monster that abducted and raped at least four children with pedophilia, who died of famine in a shed at the back of his house in Marcinelle.

The discovery of the bodies caused revulsion among the entire people in Belgium in which the largest white march was organized to protest mainly against the dysfunctions in the Belgian legal system which, as a result of this discovery, led to reforms of the entire legal system because incompetence appeared to be the major incompetence impeding the search for the children, whose lives could have been

saved. The Qatar Gate gives indications that there is still much work to be done regarding the Belgian legal system

Is Dutroux part of highlife in Belgium?

Here is more about the family de Wouters van Oplinter, that I request the Kingdom of Morocco to dump out of my country fast because they exploit our land and people:

(Pub) His Majesty King Charles III and Her Majesty Queen Camilla of the United Kingdom of Great Britain, Northern Ireland and Commonwealth: There are many de Wouters involved in the disappearance of King Hassan II. The four key people are Mrs Frances de Wouters, Maître Inès Wouters, Professor Sébastien de Wouters, and Mr Jean-Philippe de Wouters

We have come across this couple before in the dossier on [the Toyota Hilux Jeeps for the Taliban and Islamic State that Bakery Wouters purchases](#) and ships to the Middle East via General Motors in Detroit (USA) where Paul Xavier de Wouters from Oplinter works.

(Pub) For HE Joe Biden, the President of the United States: The Toyota Hilux Jeeps for ISIL Business Case / Our e-mail message introducing the case (español - français - Nederlands)

This is how the connection between [Dutroux](#) and the Wouters works, both in Belgium and abroad, which the court in Belgium did not investigate in the affair of the missing children.

Ms Marleen Seymour stayed with this family of pedophiles for four days, leaving no trace of a hotel stay or spending through credit cards in that country. She might say that she has never been to Tehran in her life.

During those four days, she met with, among others, the Mayor of Tehran, **His Excellency Alireza Zakani**. Marleen Seymour introduced herself as **Countess Noelle d'Huydewater** from **Nijmegen** in the Netherlands.

The name Noelle d'Huydewater is a fabrication. It is a name that does not exist and there is no family called that. To that they have given the title "countess", which is as bad as stealing the identity of a real countess.

The point is that in reality, the Wouters van Oplinter family do not care about all those noble titles, even though they themselves have been elevated to the Belgian peerage by King Leopold II. Apparently, they think otherwise and find it a joke well themselves making use of false noble descent such as calling themselves count, countess or even [princess](#) so that doors would fall open in faraway foreign countries to negotiate big business **at State level**, to earn a lot of money to ultimately line their own pockets instead of elevating the country and the people. That is what a noble title is for. What did they put together that gigantic social system like OCMW and CAW for? Those are part of the muppet show for which they need those fake noble titles.

Countess Noelle d'Huydewater was carrying [a briefcase with a diplomatic seal on it](#). According to local eyewitnesses in Tehran, the diplomatic seal was not from the Netherlands where she is from, but from an African country, probably **Senegal**, which has nothing to do with the whole affair.

It was the diplomatic seal that aroused suspicion. But because Countess Noelle d'Huydewater is a black woman, the Iranians gave her the benefit of the doubt, and was not questioned or reported, until I disclosed the visa-gate against [Foreign Minister, Her Excellency Hadja Lahbib](#) to the late Iranian president, His Excellency Ebrahim Raisi in June and July 2023. I reported the set-up to bring down the minister.

(Pub) Pour Son Excellence Hadja Lahbib, Ministre des Affaires étrangères de Belgique: Briefing sur les affaires du visa, du Qatar Gate et le Magrexit (Nederlands - English)

Countess Marleen Noelle Seymour d'Huydewater carried in the briefcase the **visa stickers** that bear a signature from an official in advance. Countess Noelle d'Huydewater had also brought stamps and handled the visas in a dozen Iranian passports of local officials who were going to participate in the Urban Summit from 12 to 15 June 2023.

Example of a sticker and stamp, part of which should be on the passport as well as the embossing:

Another sample is this one which dates from 2012:

A bodyguard, who is not from Iran, followed her until her departure, thanks to which we got the story. The second element that raised eyebrows in Tehran was that **on 14 April 2024, Countess Noelle d'Huydewater left Tehran for Casablanca** and not the Netherlands where she said she was from.

She may have left Iran with a large sum of US dollars, the exact amount of which may be communicated later, but which is better known in Tehran. She would have asked the civil servants for an estimated 5,100 euros per visa, to be paid in cash. This is in addition to the amount they paid in advance to order the visas through a lawyer, and this is the part that we can't figure out independently without disturbing anyone. The Iranians would have paid twice.

This highlights the importance of clarifying the total budget for the visas alone, not to mention the accommodation, meals in Brussels and registration fee for the summit. Regarding the financial aspect of this case, we searched for a secret account in the name of the fake Dutch countess, but found none. This is where our research has stopped for now.

However, we depart from the premise that more civil servants in other capital cities around the world, especially in so-called controversial countries or conflict zones, may have been exploited in exactly the same way by this evil gang. Imagine how much money she will make if each of these cities sends 12 participants!

The question is whether the trip to Brussels and the Urban Summit were worth the expenditure. Has the investment yielded any benefits? If not, I recommend requesting a refund to Countess Noelle d'Huydewater and her lawyer who arranged the orders and the invoices.

From this story, I drew the conclusion that Marleen Seymour is the one playing postman with the forged visas and stamps she carries in her diplomatic bag. At the beginning of the Corona pandemic, which would kill 7 million people around the world, Marleen Seymour arranged for someone to help her carry diplomatic pouches. This would be [Ms Colette Dongmo](#). They were filling the diplomatic pouches with [fake Covid vaccines containing a euthanising poison made in Belgium](#) instead of the serum to boost the immune system against Covid.

They Use the Diplomatic Pouch for Sending Fake Passports Around the World (Français - espanõl - Nederlands)

For His Excellency Barack Obama and Her Excellency Michelle Obama of the Obama Foundation: Something prompted Marleen Saymore to quit Zorgbedrijf Antwerp and seek another job.

We need her CV and her Covid Safe Tickets to open the hunt for Covid killers (French - Nederlands)

In 2017, [Ms Colette Dongmo](#) needed me to help her draft her flight attendant CV and cover letter for the aviation industry. I knew that totally incompetent people were directing Dongmo, but not that [the person was totally illiterate](#), and that is reportedly the case of Miss Marleen Seymour.

It is possible that our AI facial recognition camera in Brussels Midi station spotted Miss Seymour, as we have put the camera near the address Miss Colette Dongmo took me to in 2017, with [the plan to kill me after I finished drafting the job application letters for her and her CV](#).

Such is the jealousy from certain incompetent and illiterate people, when they see a highly skilled Moroccan. It's jealousy that the government of Morocco underestimates the bilateral relationship especially with Belgium who sends health workers to kill large numbers of Moroccans, including babies, in the hospitals with [fake injections](#).

The address where she took me to appears in a police report when I filed a complaint both for the hacking of my Twitter account during those days and the discovery of a huge arsenal of knives and axes in that studio, which made me leave. This could be a hiding address for Miss Seymour when need be, if she is not at the Victor Night Shelter which is currently located at ZAS Erasmus, Luitenant Lippenslaan 55, 2140 Antwerpen,

Both Miss Colette Dongmo, who is from Cameroun, and Miss Marleen Seymour, who is from Suriname, should be put out of Belgium. Both women were smuggled into Belgium to begin through a human trafficking in which they are still active themselves and through fake marriages. They exemplify the recent mass migration trends that right wing parties denounced and associated with a rise of criminality in the country to such a point that the sharp increase of the work load for the police and justice causes crime cases to stay unprocessed. The fastest way to process and close a crime case would be with deportation.

Perhaps the Islamic Republic of Iran might consider doing the same with Abu Hussein Dutroux and his wife Josephine Charlotte, be it just for the use of fake identities.

if you have been wondering why suddenly you saw a naked Iranian girl challenging the moral police with her appearance. She was probably paid an awful lot of money by Mr Abu Hussein and his wife for taking out her clothes. The girl should be questioned until she speaks up. That is why you should not believe the burka that this woman wears. She wears that so as not to be found.

Abu Hussein and his family profoundly hate the muslims. He might be the leader of Al Qaeda and Islamic State in which he manipulates muslims to commit extra-judicial beheads of other muslims with highly efficient hate speech suggesting violations according to him against the Sharia law such as drinking alcohol, dating, and communication or exchanges with the people of the other great religions.

By looking into the case of Abu Hussein Dutroux, I manage to find the answers more easily than when I knew little about him. I suspect that he and his wife traffic Iranian women to make them work in international prostitution, like probably Mrs Farzaneh Borouni, who could have been a dazzling actress in Iran. She fled to Kiev in Ukraine in 2009 and 2011, and then in 2019 she fled again, this time to Belgium. Why not Iran, and what could she have done wrong in Ukraine.

Allow me to hand over our communication with the Islamic Republic of Iran about this case and about a partnership with the Center for Moroccan International Alliances to whom you could address cases for investigations in business and finance like the ones in this letter.
