Our File N° in Belgium: PV nr: AN.45.1.B.010191/2022 - GF d.d. 27/01/2022

The swindle involving fake Schengen visas for the Urban Summit is an important topic in peace talks with Iran

Your Excellency Donald Trump

I am referring to my letters to HE Bennie Thompson, Chairman of January 6th Committee of [20 december 2022](#) and of [28 October 2025](#) about how votes are rigged and [about the Brabant killers traveling around the USA to corrupt the undocumented immigrant with fake US identity cards](#), among [other fake documents](#), which they sold to them to influence the voting results for the presidential elections in 2020.

HE Bennie Thompson, Chairman of January 6th Committee: On How Vote Are Rigged (Nederlands - français - español) (public)

This Is Not Fake News. This Is On How Votes Are Rigged In The USA (español - français)

No one has been arrested on that charge so far, and that needs to change, because the same people are doing this to set entire populations against one another with violent insurrections like the storming of the Capitol on 6 January 2021.

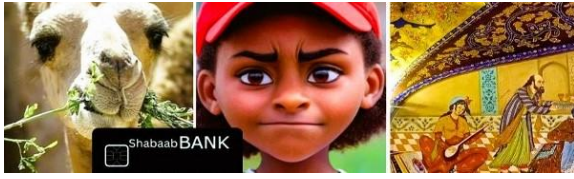

It could be a small group in Belgium related to [La Société Générale](#) and the IFRC (International Federation of Red Cross and Red Crescent Societies) doing this everywhere in the world.

His Excellency Donald Trump, President of the United States: If you ever wondered how they collect evidence to arrest a Head of State, perhaps it is worth looking at the asylum system that the UNHCR operates (pdf)

I am also referring to my letter of [19 April 2026](#) to [His Excellency Dr.Masoud Pezeshkian](#), the Honorable President of the Islamic Republic of Iran about the discovery that Miss [Marlène Seymour](#) was sent to Iran to sell fake Schengen visas to the Iranian delegation for the Urban Summit in Brussels. I never had the feeling that I had all the elements, and I hesitated publishing.

What I can do now with this letter is to extend the detention of Miss [Marlène Seymour](#) in the Egyptian prison. I received more elements which I am sharing in this letter about the swindle with fake visas that also seem to affect Egypt by two other Brabant killers, who were accidentally released .

His Excellency Dr.Masoud Pezeshkian, the Honorable President of the Islamic Republic of Iran: How much did the Iranian delegation pay for a visa for the Urban Summit 2023 in Brussels? With many thanks and with love! (pdf) (français)

For His Majesty King Charles III and Her Majesty Queen Camilla of the United Kingdom of Great Britain, Northern Ireland and Commonwealth: Profile of Marleen Seymour, the fake nurse who murders people with fake syringes at the hospitals, like His Majesty Hassan II of Morocco at Ibn Sina hospital in Rabat (Nederlands - Français)

The **Urban Summit** took place **from 12 to 15 June 2023 in Brussels**. The organiser is **His Excellency Andre Azoulay**, Governor of the province of Essaouira in Morocco, and he should be questioned about the exact purpose of the summit, who will benefit and how.

He is also an adviser to the Court of His Majesty King Mohammed VI of Morocco, though perhaps only for a few more hours, as he is due to be dismissed at some point from his function for financial fraud, corruption and for concealing crucial information from the courts in all the countries of the world, such as the reason for the recent detention of three Belgians and one Surinamese in Cairo, who were found guilty of something very serious to be arrested and held in custody for over 10 days.

His Excellency Andre Azoulay was contacted by one of the detainees named Attorney Inès Wouters from Belgium. She told the Egyptian prison police that she wanted to call her lawyer whose name is **Attorney Louis Desgranges**.

It turns out that he was none other than Mr André Azoulay, who flew to Egypt disguised as a lawyer to free criminals like himself who fill [La Société Générale](#) with proceeds from theft and loot everywhere in the world.

This gives you an idea on what to expect from the Urban Summit given the involvement of the same bunch of criminals and their family members, who are also the shareholders of [La Société Générale](#), [IFRC \(International Federation of Red Cross and Red Crescent Societies\)](#), [Sofira Holding SA](#), [Sofina Group SA which finances the OCMW/CPAS](#), [Belgian schools and universities, hospitals and a lot of industries](#), [NH Hotel Group/Minor Hotels](#), [Kempinski Hotels and Resorts](#), [Douglas Parfumerie](#), [CAW \(Centrum Algemeen Welzijn\)](#), [Vander Zijpen](#), [Leemans Transport](#) and [Fresh Kampo](#), just to name a few, because [the Brabant killers](#) have a finger in every pie, almost all over the world, including in your central banks through [the World Bank](#) and [the IMF](#).

The Hard Core of The Brabant Killers - April 2026 update

The Killers Who Revamped Themselves To Leading Business Executives and Academics, To Never Be Found

It is with this understanding that I suggest that you discover the people who want to rule your country and mine:

His Excellency Andre Azoulay was reportedly the sponsor of the Urban Summit and to me it is not clear under which flag or brand he precisely financed the whole event, because he is a simple civil servant in Morocco and not known for owning any big businesses, at least not under the name which he uses for his profession at the Moroccan government.

Given that he positions as the sponsor, all the governments concerned should request transparency on the financing of the Urban Summit 2023 to avoid losing money next time with him. He is said to have paid for all the preparatory trips mentioned below that are in my humble opinion a true disgrace for the Moroccan authorities he attempts to misrepresent.

The other sponsors are the **OECD Organisation**, sponsored by **AIT (Austrian Institute of Technology)**, the **Climate and Energy Fund (origin unspecified)**, **Berlin Partner**, **Danfoss** (Denmark), the **European Space Agency (ESA)**, and **ICLEI Europe**, amongst others, who are nowhere mentioned. As you can see, they only display the (white) European sponsors who paid through the bank, but there is a lot more money involved from participants in the other parts of the world whose contributions don't count. That is what I would like you to remember, so that next time when they want to sell you anything, tell them to run to hell!

A lot of countries obviously lost their money because there has never been any other Urban Summit afterwards, isn't it? They are not building further on what was decided in the previous edition. There is nothing being constructed that marks a further evolution for mankind. They don't care about that.

They were only very puzzled about the “[Inner City Community Development](#)”, that I was promoting on [AllahGhaleb Wix Site](#) as well as in a letter to HM Queen Elizabeth II about transforming the economy of Morocco. They hacked the site and suspended my access to it, so that they can skim off funds from everyone to fill their [La Société Générale](#) which launders their proceeds from drug trafficking, migrant smuggling and prostitution in their hotels all over the world. In Belgium, they created SAAMO with that, but we can't say that

**It is not La Société Générale which can launch humanity into a new era
With this bank we will go back to the Ice Age**

They have no clue on what is possible. They would have gotten sharper ideas had they let [AllahGhaleb Wix Site](#) up and running, but they are downright **idiots**. Not knowing which direction to take with regard to towns and communities, they lumped everything together under the heading of climate and energy, and they set themselves limits on how things could evolve over time. It could be the reason why they didn't issue a new edition.

In this respect, all the participants were possibly rolled by His Excellency Andre Azoulay, Professor Jan Wouters, and [their gang members](#) who were all involved in organising something to steal the best ideas for urban development and to raise more money for big infrastructures through the [World Bank](#), so to rip all the countries once again from that side and from the side of real estate as well, as all they are looking for is to secure their food security by starving your people, just like they are doing in Gaza. That is the team behind the Urban Summit.

For His Excellency Donald Trump, President of the USA: PICUM has never presented a business case on undocumented migrants to say that Fresh Kampo was only for hotel guests

For His Excellency Donald Trump of the USA: Regarding the famine in Gaza, I'm wondering whether anyone knows where Vander Zijpen is now? (pdf)

Briefing to the Alwaleed Philanthropies on why the Belgian treasury bond is an important lever for the Middle East and North Africa, for Palestine in particular (pdf)

Jan Wouters, Professor at **KU Leuven** etc. Full Professor of International Law and International Organizations, Jean Monnet Chair and Global Governance, and founding Director of the Institute for International Law and of the [Leuven Centre for Global Governance Studies](#), at [the College of Europe \(Bruges\)](#) he teaches [EU external relations law](#). He oversaw the distribution of fake visas across various countries, mostly Islamic countries, determining who received what and how much, much like a teacher instructs his followers in that type of criminal methodology, because

He hates all of you

This man seeks global governance, which means that he wants to have the last word in your country. That is what he believes. That is his conviction and I hope you all know where all the problems in your countries come from. They come from a little country called Belgium. You also know what is needed for solving the problem. Do it quickly or you will have no more money.

This is Professor Jan Wouter's text about his prosperity network. He is not talking about your prosperity. He is a [Ku Klux Klanner](#). He takes the trouble to travel to the USA only to participate in the hanging and burning of black business owners. Such is his fury.

For His Excellency President Donald Trump : Strange Fruit Will Always Continue To Grow With Seed Money (or capital) From Belgium

Now, we have the right to show our fury too, and be very angry with him and his gang too. Let's find out in this document where he finds capital for growing hatred

He only cares about his own prosperity and he has made that very clear. Why can't we all care about our prosperity too **without his folk?**

When he discovered our [multidimensional economy plan](#), he sought to raise his profile and funds with it at the United Nations and the European Union. This man also has a position with bailiff Modero, [whose name appears on a letter for a Spanish Moroccan couple who faced an eviction from their home](#) based on a counterfeited eviction warrant.

| <p style="text-align: center;">This is the letter</p> | <p style="text-align: center;">This is the footer on which you will see the name Jan Wouters</p> |
| | <p style="text-align: center;">Gerechtsdeurwaarders Jan DE MEUTER - Cathérine MISSAL - Charles MERTENS Guido DUPONT - <u>Jan WOUTERS</u> - Hugo LUYTEN Johan GENBRUGGE - Dirk CORSTJENS - Bruno RAEMDONCK Kandidaat-gerechtsdeurwaarders Ivo DRAGHET - Victor VAN DEN MOOTEN - ...</p> <p>Jan Wouters is <u>suspect N° 15 of the wanted in the Brabant killers dossier</u>:</p> |

This overly ambitious university professor launched the Leuven Centre for Global Governance (Studies). got himself [a chair at the College of Bruges of the European Union](#). took our concepts to UNIDO to build them into a prosperity network. He combined our CMIA concept to our networked multicultural innovation concept, to implement intangibles like health, happiness and prosperity. That is how he amasses funds for his prosperity at Sofina Group, and the prosperity of the OCMW who gives me peanuts.

**They find this normal in Belgium
Getting beaten is normal in this country**

Letter to the Qatar Foundation: The Moroccan Center for International Alliances (français)

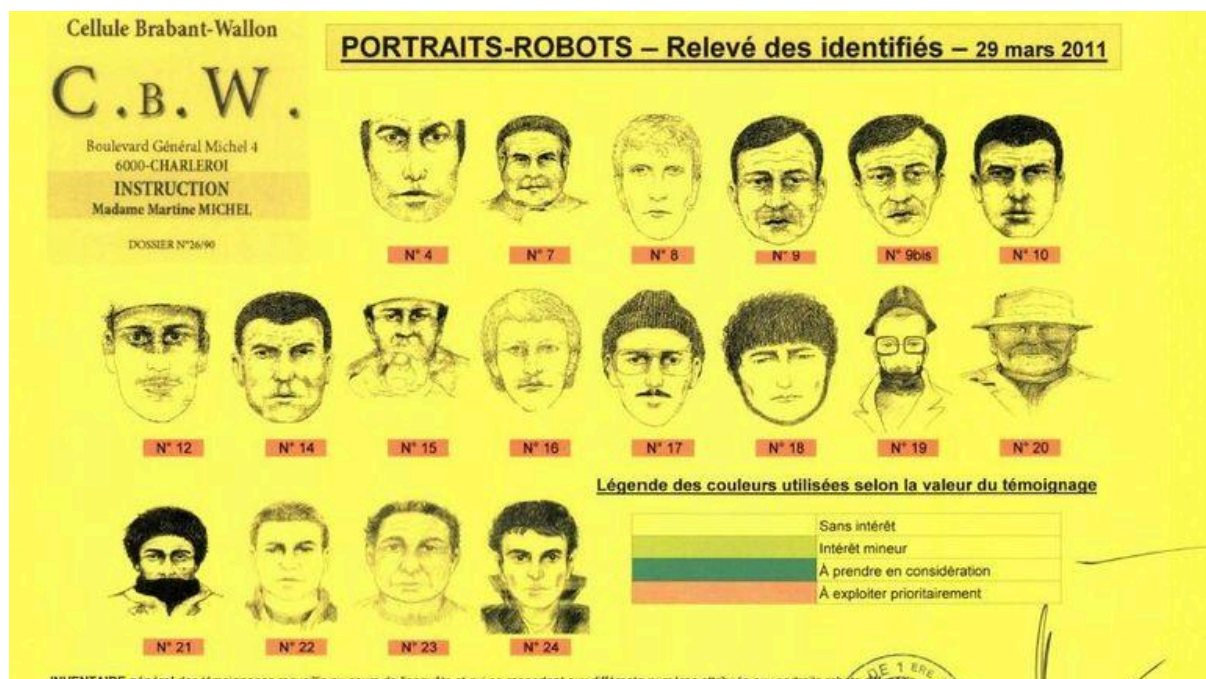

He is leading by example in his country, because that is the purpose of any professor in the world. He shows the example, and he possibly pays students who he would influence with Ku Klux Klan ideas. **That is why sending foreign students to Belgium is extremely**

dangerous, which should be put on a halt for safety reasons. [They have skimmers in this country walking around freely](#), in addition to [a justice system which is either not functioning or corrupted](#).

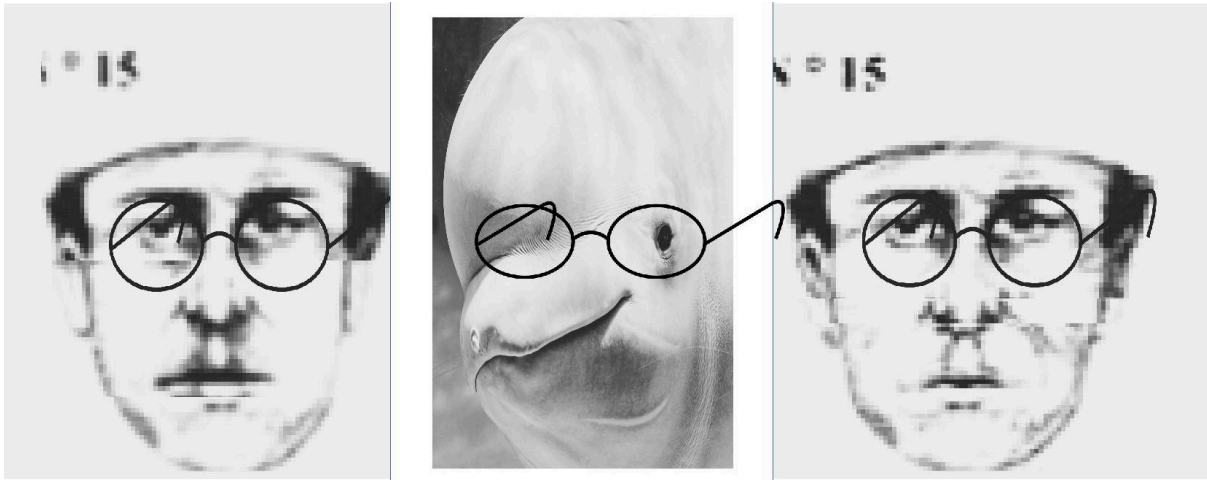

I am not stopping him. Let him implement his prosperity network quickly, because Belgium in particular will be in great need of his help as a gangster.

|---|--|--|
|  <p>UNIDO Report Launch 'Networks for Prosperity'</p> <p>Intervention by Prof. Dr. Jan Wouters, Director, Leuven Centre for Global Governance Studies / Institute for International Law, University of Leuven</p> <p>Mr. Chairperson, Excellencies, Ladies and gentlemen,</p> <p>The world has been changing dramatically over the course of the past decades and this process will continue and probably accelerate further in the foreseeable future. There are many facts and dimensions to this process. Please allow me, at the occasion of the launch of <i>Networks for Prosperity</i>, to point to a number of points that stand in direct relation to the overall evolution and the report.</p> <p>Looking merely at the evolution in the number and variety of actors involved in the international community, one simultaneously observes both a multiplication and a diversification. First, the number of stakeholders that has gained a voice in the international debate has risen dramatically in recent years, with numerous states, particularly in the East and in the South, rightly making their claims to be heard and to participate in international governance processes, from a bipolar world to have entered an era where even multiple stakeholders struggle to give an accurate representation of international political dynamics. Second, this emancipation of new actors has not been limited to a habilitation of those states that were not or not adequately represented until now. Indeed, the international stage has seen the appearance of altogether new actors and governance systems. In this latter category we think notably of processes of regional integration – one need only think of organizations such as ASEAN, CARICOM or the African Union, which are on their way to becoming full-fledged regional intergovernmental organizations. Let us also mention private and public-private governance initiatives, often concerned with global public goods, that are moving the transparency by imposing standards of quality and safety on the goods traded. These standards are sometimes privately set and often privately enforced, yet their impact makes them more akin to public international regulations. Finally, we must make reference to transnational corporations, organizations that span the globe and that therefore indisputably have their role to play in ensuring its good governance.</p> <p>The multiplication of international actors has added breadth and depth to the international community, broadening it at the level of states and adding extra</p> | <p>layers to it with the appearance of both regional organization and private and public-private entities and initiatives. Consequently, there has been a corresponding increase in potential and actual interactions and interaction mechanisms between these actors, old and new, public as well as private. The networks that have become an integral part of the global governance puzzle.</p> <p>For us academics, for development practitioners in organizations such as UNIDO as well as for the international community at large, these changes are not making our jobs any easier. However, in spite of the complications they present, they might make our work more interesting. Indeed, it is my firm belief that for all of us there present lots of opportunities.</p> <p>For the academics among us, they may serve as a timely reminder to carefully reconsider the way we look at international relations. In law and political science, the shift from government to governance compels us to consider not only in a critical manner classical international organizations such as the United Nations and its specialized agencies, but to also take into account the new governance schemes just mentioned. The discipline of networks, originally developed in social sciences but widely appropriated elsewhere, is there to account for the surplus above the sum of their parts: they present and define the interactions between the actors and networks are generated. In economics, finally, the theory of knowledge and knowledge management examines the way in which knowledge functions as an input in a productive process, how it is created, shared and sometimes even lost. All this makes it abundantly clear that in order to get a sufficient grasp of the processes at hand, we must transcend or perhaps transcend the boundaries of the sub-disciplines of the humanities and instead take an interdisciplinary approach.</p> <p>For the development professionals and international organizations concerned with development, the change is perhaps even more fundamental. They are faced with an intricate web of individuals, organizations and networks, all concerned with ensuring sustainable economic development. In order to know who these actors are and how they can work together best, it is crucial to develop a clear conceptual and practical understanding of these networks and their effects on private sector development.</p> <p>For the international community at large, we hope that it may provide an impetus to continue to move towards a global political system in which all actors participate on an equitable basis.</p> <p>In <i>Networks for Prosperity</i>, we have adopted a multi-actor and multi-scale perspective. Such a comprehensive approach is crucial in order to grasp the complexity of current-day governance arrangements and their effect on private sector development and development in general. We have examined the private sector development 'ecosystem' as a whole, with particular attention for each actor's role in the governance of the system. We have tried to quantify the effect that networks have on private sector development, and although the results are</p> | <p>highly promising, the main outcome is that a lack of specific, reliable data and indicators still hampers research and must be addressed in the future.</p> <p>Let me conclude by expressing my sincere hope that <i>Networks for Prosperity</i> be read and interpreted not as the final word on networks and knowledge management in private sector development, but rather as a useful step along the way, a spur for academics and development practitioners alike to continue investigating the role of networks and knowledge management and the benefits they can deliver to those who need it most.</p> <p>Thank you for your attention.</p> <p>Prof. Dr. Jan Wouters Jean Monnet Chair of European EU and Global Governance Professor of International Law and International Organizations Director, Leuven Centre for Global Governance Studies - Institute for International Law University of Leuven President, Flemish Foreign Affairs Council Honorary President, United Nations Association Flanders - Belgium</p> |
|---|--|--|

... He is a Brabant killer. He is suspect number 15 of [the most wanted in the context of the Brabant killers](#).

We identified him with [our animal-based human facial recognition software with AI](#), which [signaled 99.9% of correspondence](#) between [a mugshot taken between 1983 and 1987](#) in the context of shootings in major supermarkets in Brabant, and the current picture I found in [the Who is Who of the College of Europe](#). The reason why he is a professor teaching and not in prison is the use of fake identities.

07/05/2028 15:36 Ces noms qui reviennent dans le dossier des tueurs du Brabant: qui sont-ils? | 7sur7.be

7sur7 ME CONNECTER

Michel Libert

Costaud d'1,91 mètre, **Libert** a été soupçonné dès 1984 d'être le "Géant" des tueurs du Brabant. Il était leader du groupe d'extrême droite Westland New Post (WNP), qui a été relié aux tueurs, pour la préparation.

Selon lui, le WNP a filé des personnes "qui travaillaient pour l'Union soviétique" et était prêt à intervenir en cas d'invasion. Il maintient à ce jour n'avoir jamais participé aux attaques et affirme ne pas être le Géant.

▲ Michel Libert, à droite, partage des traits avec le portrait-robot du "Géant" © DR

Jean-Marie Tinck

Précédemment condamné pour des crimes violents, Jean-Marie Tinck a autrefois clairement fait partie des tueurs, ce qui l'a mis dans le collimateur des enquêteurs. Il a été écroué pendant deux mois en 2014. Mais à sa libération, **Tinck a nié avoir un quelconque rapport avec les tueries.**

BRUGES NATOLIN EN FR

Home Academic Offer Faculty Jan WOUTERS

Jan WOUTERS

Visiting professor, EU International relations and Diplomacy Studies Department (Bruges campus)

Jan Wouters (BE) is Full Professor of International Law and International Organizations, Jean Monnet Chair *ad personam* EU and Global Governance, and founding Director of the Institute for International Law and of the Leuven Centre for Global Governance Studies, an interdisciplinary research centre with the status of both a Jean Monnet and KU Leuven Centre of Excellence, at KU Leuven. He is also President of KU Leuven's International Policy Council and Administrator of the America Europe Fund. He studied law and philosophy at Antwerp University, obtained an LL.M. at Yale University and was Visiting Researcher at Harvard University. As Visiting Professor at Sciences Po, Paris-2 (Panthéon-Assas), LUISS University and the College of Europe (Bruges) he teaches EU external relations law. As Adjunct Professor at Columbia University he teaches on the EU and human rights. Prof. Wouters is a Member of the Royal Academy of Belgium for Sciences and Arts and practises law as *Of Counsel* at Linklaters, Brussels.

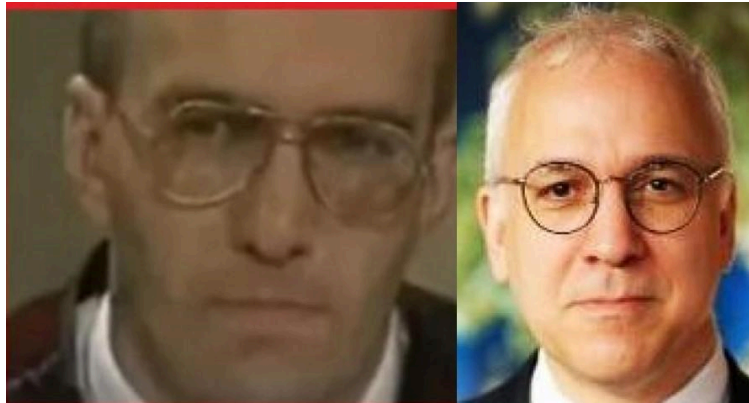

He is editor of the *International Encyclopedia of Intergovernmental Organizations*, Deputy Director of the *Revue Belge de Droit International*, and an editorial board member in eleven international journals. He has published widely on international and EU law, international organizations, global governance, and corporate and financial law, including 75 books and more

He kills without second thoughts. Killing human beings extra-judicially is a **savage behaviour**. If he wasn't a savage he wouldn't need **to steal** concepts from anyone at all to appear like any normal human being. Stealing concepts is the reason why they want foreign students to come to Belgian schools. **They want our future.**

With a little research, you will find that he was arrested in the context of [the Brabant killers](#), and apparently he was released. I just don't understand it, but that is how Belgium as a country functions.

It is helpful to know that he is a shareholder of [Sofina Group SA](#), an investment company I am investigating, of which he wants to boost the shares with stolen concepts in developing countries. These people are utterly **malevolent**. Something needs to be done.

Let me remind you that this man works as a bailiff... He is an assassin, and he is a bailiff too.

This letter illustrates how his prosperity network operates on swindle. It is designed to make himself rich and to pay other to also become very rich at the expense of people in other countries, and that is the central issue to which all the countries need to find a response, because an economic system which operates like this is untenable for all the countries except Belgium.

Thus, [Attorney Inès Wouters](#) and Mr [Alfons Nuyts](#) travelled with Miss [Seymour](#). We did not have this information until we asked ourselves why Seymour suddenly had to be detained during a time when a war was going on between the USA and Iran, and between Israel and the Iran-supported Hezbollah in South Lebanon, where they were sending previously Miss Seymour to sell weapons of FN Herstal almost every year.

I am not an international politics observer or expert at all, but selling weapons to Hezbollah feels to me like destroying the Hebrew State. It feels like asking Hezbollah to kill as many Jews as possible. [Could this be the reason why they suddenly wanted to get rid of her ?](#)

It is possible that the decision has something to do with this, although we would naturally expect that from the [Ku Klux Klan](#) towards someone with a skin colour other than white, or with a nationality other than the Belgian one.

Only, [Miss Marlène Seymour cannot read or write](#) to understand what the [Ku Klux Klan](#) wants from her, they are all educated, they're in the lead, they are white, they are incredibly rich and they have been taking advantage of her weaknesses. All she understands is money, and that suits the Brabant killers very well. That is all they want you to understand.

As Thai woman who arrived through women trafficking to Belgium once told me

“They love us for our weaknesses”

She means by this, that they need crushable people. My personal experience is that

**“They hate us for our strength...
They hate Islam because it is strong”.**

So is Christianity... They hate the Jews for exactly the same reason in addition to the fact that they are one. They try to crush all these religious groups.

Instead of harbouring respect and admiration, this particular species tends to develop hatred initially at a surprising speed. **Rejection** is always their first reaction against a foreigner. Only afterwards, they want to discover what it was they rejected, excluded and diminished.

What I knew about [Marlène Seymour](#) is that she has always been rejected and hated by the very people who employed her to execute, behead, [dismember, chop up](#) and [throw the victims to the wild animals](#) or in [mass graves](#). They want us to look at her as the cruel one, but she gets paid by people who are much more cruel than she could ever be. She comes in after all the decisions are made by the others. To hide this truth, [they want to get rid of her](#). The writing was on the wall and that was just a matter of time. It's not that they fire and let her go, now that they have filled their banks, grown their network of hotels and farms in occupied territories all over the world. That is why she is not the first to be punished, but perhaps the last.

The lesson here is to protect the illiterate population against possible colonisers who manipulate this group and to finance literacy programs by your own banks, not by foreign banks like La Société Générale and the World Bank.

His Excellency Simon Harris,
The Taoiseach of the Republic of
Ireland: Marleen Seymour was
a child soldier raised by militia
members of the FARC in
Colombia (pdf) (français -
Nederlands) (mou)

Extreme hatred is when
humans are fed to the
crocodiles (Nederlands -
français)

Her illiteracy (perhaps like all the illiteracy in the world) is part of [the Belgian economic system](#), just like [drugs](#) and [alcohol](#), and anything that cancels the functioning of the brains. This is why I am not convinced of Belgium. If you move up the ladder (even if you are a native from Belgium), they'll hate you. Let's accept that this is everywhere, but what you find everywhere and not in Belgium are forces who counterbalance the loss or damage caused by hatred.

... And what is their strength then? It's their wickedness which they hide in extraordinary ways that they display externally, by living in beautiful houses with awesome interiors by wearing fashion (it's why they need counterfeit of big brands), the latest perfumes (that is why they need not only the enormous network of Douglas Parfumerie, but also Parfumerie du Centre, Elle et Lui, and they also need Ici Paris XL and also Rituals. All these beautiful things attract migrants who would trade their country for this one. Once they get here, they

find that life in Belgium is extremely tough in all aspects. It is a very expensive country to live in, it is not easy to find a job, they are not the friendliest and they specifically target the foreigners with racketeering to keep them poor. Which other country is like this?

Nobody expects such a bad and ugly species to be at the head of these very beautiful perfume and make-up distribution businesses. They want to manage the beauty produced by real people who invest their soul into creation. They want to make us their slaves because they are incapable of creativity whatsoever.

This is why this civilisation is doomed to come to an end without ever restarting again compared to the civilisations that have been around for thousands of years because of their strength... and that is what makes them jealous and hateful. They won't resolve this with human trafficking and colonisation.

We managed to find answers on [our question how much it cost for the Iranian delegation to get hold of a Schengen visa to attend the Urban Summit in 2023](#): It now appears that [Marlène Seymour](#) did not travel to Tehran entirely alone:

Ms Inès Wouters is also said to have made the same trip to Iran as **Sofia Bertinelli** from Como (Italy).

Mr [Alfons Nuyts](#) is said to have accompanied her on that trip to Iran, as did **Gino Bertolli** from Rome (Italy), as in the Italian brand of olive oil.

This is new information for us :

On **9 April 2023**, they travelled together with [Marlène Seymour](#) on **Royal Air Maroc** to **Casablanca** in Morocco, presumably to collect the necessary forged visas and identity cards, as the workshop where these are produced is based in Morocco.

The manager of this workshop is **His Excellency [Lucien Leuwenkroon](#), the president of the Belgium-Luxembourg Chamber of Commerce in Morocco.**

The following day, on **10 April 2023**, they were on a direct **Emirates Airlines** flight to **Tehran**. In Tehran, they were received by Mr **Dominique Dutroux**, the brother of [Marc Dutroux](#), and the husband of Mrs **Josephine-Charlotte de Wouters van Oplinter**. The couple live in **Isfahan**.

Dominique Dutroux' name in Iran is **Abu Hussein**. I haven't been given a local name for the woman, who not only wears a burqa there, but also funds the requirement for all young women to do so as if possessed. So the problem of the veil doesn't come from there. It is a problem of oppression, and that is a Belgian issue. The whole of Africa is complaining about it to such an extent that radical decisions will be taken. It comes from the Nazi-minded Belgians who want to keep everyone under the thumb and go everywhere with that idea in mind.

Abu Hussein and his wife have three children: **Frédérique** (male), **Jean-Louis** (male) and **Sylvie** (female), whom they may be teaching the same hatred for Iranians in order to make profit from those people by instilling fear. I wonder with great concern whether this family is still alive following the recent bombings of Tehran.

Perhaps, under a different identity, they are running a [Red Crescent agency](#) in Isfahan to polish up their image by providing humanitarian aid to the poorest people in Iran, and in this way they are building the social base to overthrow those in power and to defend [the Red Crescent](#). They are there for that reason alone, and to encourage the migration of Iranians on false visas, preferably to Europe and America, so that they can eventually take over their homes and land in Iran.

In Iran, they will have an [NH Hotel](#) under the guise of stimulating Iran's country's economy through 'tourism'. I am sure you understand what I mean by 'tourism'. That tourism generates hundreds of billions for [La Société Générale](#) so that this bank can finance major infrastructure projects in countries where it wants to exert control over the population, with this kind of tourism.

Whether kamikaze or pinup, It's ultimately to make a beast of you like himself (français - Nederlands - español)

In Iran, Ms Inès Wouters and Mr [Alfons Nuyts](#) presented themselves as employees of [La Société Générale](#), which I discussed earlier:

Ms Wouters is said to have told the Minister for Roads and Urban Development that at [La Société Générale](#), she is **in charge of the trading department** where shares and bonds are traded. That is the department in which Mr Jérôme Kerviel was employed, and I wonder if this has something to do with her choice to pretend she was his chief.

Mr [Alfons Nuyts](#) is said to have introduced himself as **Deputy Director-General for Investments**.

Given that they are shareholders of [La Société Générale](#), anyone within that bank who dares to tell the Iranians that they have been lied to, will be killed. That is what working with the Brabant killers is like.

It is possible that the real plan was to sell shares in their own companies, such as [First Eagle](#), [NH Hotel](#)/Minor Hotels and [Douglas Parfumerie](#), in order to get closer to the female population through that channel, or [Euro treasury bills for the financing of the government budget, which will never yield a return, neither after a year, nor after 10 years, or ever, as they have done in Morocco](#), involving a large number of pension funds. Something like that changes the relationship.

I was asked how I came on track of First Eagle (pdf)

The Toxic Euro Government Bonds

We eventually found out that a total of **57 visas at 1,200 euros each** were distributed in Tehran alone. It is said that the opportunity was also taken to distribute **fake Iranian identity cards**, mainly to Afghans, at a cost of **1,000 euros each**.

A total of **32 ID Cards were snapped up by Afghans** who wanted to use them to circumvent potential obstacles within Iran or who might have been hoping to bypass the travel bans of the first Trump administration in this way in certain US States, given the war in Afghanistan at the time. Find out more about the financiers of that war.

5 Belgians flew to Afghanistan to attend the burning to death of 5 Afghans, on 12 September 2007 (Netherlands)

They gave [Ms Marlène Seymour](#) the role of distributing the fake Schengen visas, because she is black. In this way, it will look like she was entirely in charge of those fake visas.

She introduced herself as **Countess Noelle d'Huydewater** from **Nijmegen** (The Netherlands). I shared [that story in the form of a link](#) in another document to illustrate an argument concerning Ms [Marlène Seymour](#), but not as the title of a post or a blog, and in which [Attorney Inès Wouters](#) and Mr [Alfons Nuyts](#) do not appear. Hence the impression that [Attorney Inès Wouters](#) and Mr [Alfons Nuyts](#) might have had, that there is no suspicion against them for this international crime.

To ensure that attention would never be drawn to them, [they are alleged to have agreed to arrange the murder of Ms Marlène Seymour in Lebanon](#), to eliminate her as a witness and then to shift the entire blame onto Ms Seymour, hoping that the Court will not question the disappearance of that witness. In Belgium, that's how it works. That's why they do it this way.

On 17 April 2026, Marlène Seymour was arrested in Egypt on a different charge, together with Attorney Inès Wouters, Professor Roland Willemyns and Ms Anne Verhoeven, and was held in a prison in Egypt.

On 27 April 2026, the three Belgians who I just mentioned last were released and sent back to Belgium, whilst Ms Marlène Seymour's detention was extended. If you are Marlène Seymour's family, you will feel betrayed.

Attorney Inès Wouters and Professor Roland Willemyns had previously been arrested for the rape and murder of two young Nigerian women who had come to undertake an internship at the Kempinski Nile Hotel.

You can find the full story regarding the Urban Summit 2023 in a letter to Dr Masoud Pezeshkian via this link, alongside and below which are the letters to the presidents of the most powerful countries, including Egypt, warning that Ms Seymour was at risk of being killed (for trivial matters).

Son Excellence Emmanuel Macron, le Président de la République de France: Est-il encore utile de sauver la vie de Marlène Seymour, alors qu'elle est en train d'entreprendre son dernier voyage? (pdf)

His Excellency Donald Trump of the USA: They're caught in Egypt and they are the ones who caused the Arab Spring, Mubarak's fall and over 800 deaths (pdf)

His Excellency Abdel Fettah Al Sisi, President of Egypt: Arguments in favour of the prolonged detention in Egypt of four Belgians and one Surinamese national (pdf)

His Excellency Donald Trump, President of the USA: This is an example of how staff are treated at hotels owned by the current s Group, as evidenced by cases of rape

The proceeds from the sales of fake Schengen visas in Iran, which were still paid in cash in a rather archaic manner (and this with representatives of such a large modern bank as La Société Générale), were immediately placed in a suitcase bearing a seal from the Spanish Embassy in Egypt. The suitcase was placed in a hotel safe, along with a Spanish document explaining its contents, intended for border control.

They flew from Iran via Paris Orly directly to Limoges in France where Ms [Anne Verhoeven](#) owns a property as Jeanne Dumoulin. They stayed there a few days after which they went to [La Société Générale](#) in Paris to place the money in a secret account with a fake identity.

They made sure that there is a break of a few days so as not to provide a logical chain of evidence linking their crimes directly to them.

The other new information is that the same gang has also targeted the Urban Summit and its sponsors in various other countries with these fake Schengen visas, such as Morocco, Jordan, Syria, Libya and Egypt:

In Morocco, the sale took place on 9 March 2022; the sale of a number of forged Schengen visas was limited to 14 documents, sold at 1,800 euros each to the mayors of **Fes, Rabat, Essaouira, Tangier, Marrakesh, Agadir, Tétouan, Al Hoceima, Kenitra, Ouarzazate, Meknes, Salé, Oulmès, Ifrane; Skhirate**

The exact location where the distribution of the fake visas took place was in Fes at the Hotel & Spa Dar Bensouda in the old town of Fes. We received reports that the hotel is exclusively dedicated to sex tourism involving group sex. That was to make a finger to the Moroccan authorities and I am wondering when they will understand this about Belgium, finally. It is high time Morocco shows a big finger to Belgium by shutting down with any comment the Belgium-Luxembourg Chamber of Commerce in Casablanca.

Those present at this event, conducted with great pretence of protocol and diplomacy, were:

[Lucien Leuwenkroon](#), who had introduced himself as a member of the Luxembourg embassy; he claimed to be called **Guillaume Lemaître** and to be from Boulogne-sur-Mer.

| | |
|--|---|
|  | <p>Sniper n°1 in Beirut in 1976 is François Leemans aka Lucien Leuwenkroon</p> |
|  | |
| <p>The total number of shares in Vander Zijpen amounts to 40% for Lucien Leuwenkroon.</p> | |

From a very young age, he regularly conducted massacres in Beirut, Gaza and other war zones like Ukraine. **He is suspect number 24 on [the list of most wanted of the Brabant killers in Belgium](#).**

He is said to have signed the visas and wanted to collect all the money, as this is how he built up the [NH Hotel](#) chain – through massive fraud – at the highest levels of government, with a foreign trading partner for whom he himself acts as the representative for Belgium and Luxembourg.

Moreover, he is known in Morocco as [Lucien Leuwenkroon](#), and yet he wanted everyone to think his name was Guillaume Lemaître. He is standing there in front of them and they know he is [Lucien Leuwenkroon](#), but he dares to insist that he is Guillaume Lemaître. Insisting that he is [Lucien Leuwenkroon](#) can be deadly. He will not kill on the spot, but he will remember and hire hitmen like [Marlène Seymour](#) for destroying that person at some point, a triviality like the fake name he uses.

That is why I do not recommend partnerships with Belgium. You could get killed for small things, like the name, like being present somewhere,

or for having done business with someone like Mr Lucien Leuwenkroon.
He can keep his business and his money!

The second was [Alfons Nuyts](#), who introduced himself as **Michel Verniers** from Le Mans. He collected payments from the customers and handed the sums collected over to [Lucien Leuwenkroon](#)

| | |
|---|---|
|  | <p>Sniper n°2 in Beirut in 1976 is Jean-Philippe de Wouters aka Alfons Nuyts</p> |
|  | |
| <p>The total number of shares in Vander Zijpen amounts to 36.5 % for Alfons Nuyts.</p> | |

In the period after the 11 September 2001 attacks in New York, Mr [Alfons Nuyts](#) began to brush up his profile by copying my initiatives for Morocco. That is how I eventually found out about [La Société Générale](#) in my country, and I want this bank to be moved to another country. He evolved from a simple animal carer at Circus Bouglione to one of the largest shareholders of distribution chains all over the world. He aims to be the CEO of Carrefour and he does that by the elimination of the original owner and CEO. That is how he raises the image of his country Belgium. There is an obvious link between him, Vander Zijpen, the Occupied Territories of Palestine and the distribution companies he aims to own. One of his strategies is to take the original name of [his adopted children](#) which he seeks in foreign countries. When they are grown up, he throws them out to join the homeless community, as a way to slow them down and to let them die without him needing to kill them.

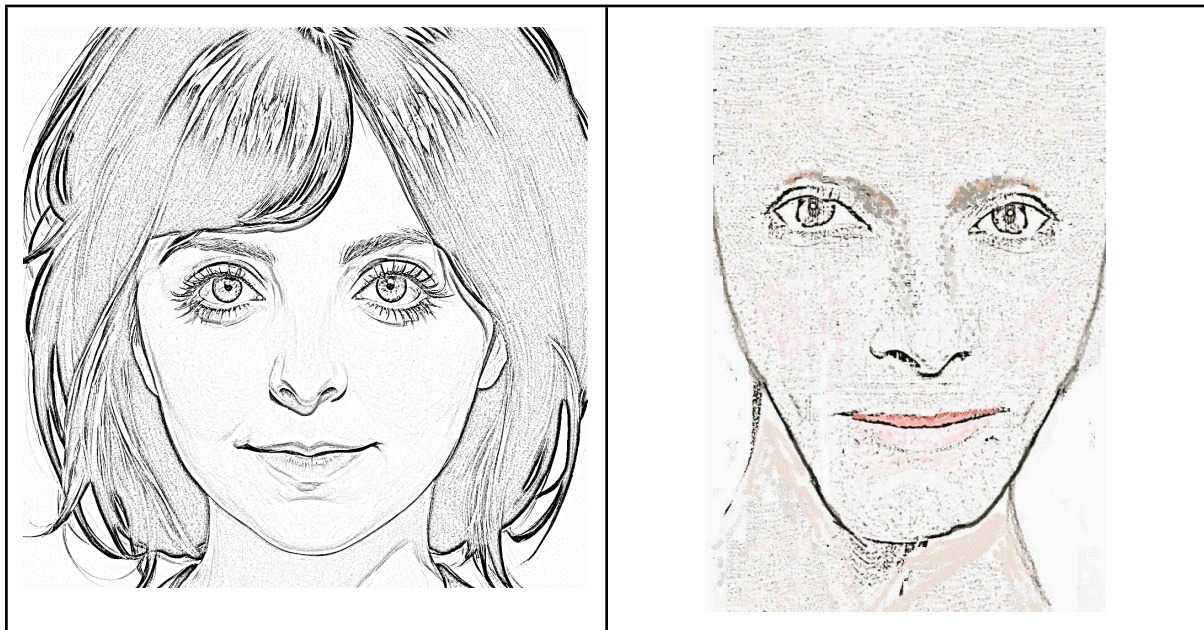

His Excellency Donald Trump,
 President of the United States of
 America: Here are the reasons
 why you should avoid Mr Alfons
 Nuyts in all your business dealings
 (pdf) (français)

For His Excellency Donald Trump,
 the President of the USA: The
 social service is slow to pay. They
 should not criticise homeless
 people for taking longer to find a
 home, if they make things harder
 for them to do it

Mr [Alfons Nuyts](#) is suspect [number 16](#) on [the list of most wanted of the Brabant killers in Belgium](#)..

The third was [Anne Verhoeven](#), who was present and introduced herself as **Georgette Meunier** from Orléans (France), as a delegate of a political NGO in Gaza

During that fake visa operation, [she has infected four men with HIV](#). All of them are officials. She has not suffered any injuries from any North African men of which we have never heard that they do horrid to women, unlike [some Belgians who completely destroy women's reproductive system with their sex](#). Foreign surgeons reported noticing an incredible amount of sexually mutilated women in Belgium applying for reconstructive surgery and/or having all removed to stay alive. They are not allowed to talk about it in public, because in Belgium, they want to hide a lot of things. There is a lot they don't want you to know about tjis place.

[Anne Verhoeven](#)'s reproductive system remained whole, and she has directly infected more than 100 men in more than 50 countries. From all the men she infected, Miss [Anne](#)

[Verhoeven](#) has probably not yet fallen on monsters like the ones she has in her country, who basically hate the female species

They arrived on 2 March 2022 and left three days after the fake visas were issued in Fes.

The opportunity was used for Intentional spread of HIV

[Anne Verhoeven](#) was paid to carry out those infections intentionally. She received **375,000 USD** for this and a list of people to target, which came from an account held by **Lucien Leeuwenkroon** at **Crédit Lyonnais** in **Paris 12** under the name **Olivier Minor** from Marseille, which he had opened on **February 19, 1997**. There is currently a total of **114,266,928 euros** in the account.

Pour l'Honorable Président-délégué du Conseil Supérieur du Pouvoir Judiciaire du Maroc: Je vous prie de modifier la loi pour punir la contamination par le VIH à l'origine du SIDA (Nederlands - English)

The 375,000 USD went to an account held by [Anne Verhoeven](#) at **Société Générale** in **Paris 12** under the name **Judith Einzelmann** from Augsburg, Germany. The amount first went to Deutsche Bank in Augsburg. She has held this account since **October 18, 2000**, and it currently holds **92,088,679 euros**.

Anne received her payment three days before she raped the men, resulting in an infection from which the men subsequently died. It must be with this activity that she managed to buy a new home in 1999.

To bring about the infection, she first had to become the host of the highly infectious genes from a different DNA-group to which she belongs herself. The shape of her head is very distinct as it is flat on the crown and flat at the back. She has a true block head. Mine is like an Easter egg, which shows that we are wide apart genetically and that it is not in our interest to have anything to do with her physically as we have no knowledge of the bacterial,

fungal and viral profile of her group. What is natural to her, can be deadly for us. All her group wants is that you and I mistake them for modern humans. However, their savage nature never fails to show itself

It turns out that she intentionally infected the others efficiently, she first has sex with Mr Alfons Nuyts who still possesses the physical and mental characteristics of a primate (which is to be hateful and murderous) and a cannibal. He is a real murder ape, from the same DNA-group like Anne. He slept with her for free.

His Excellency Donald Trump: The sexual mutilation of foreign women and the very high number of HIV/AIDS infections in Belgium are cited as reasons for the Magrexit (français - Nederlands)

She would be using the proceeds from prostitution to fund Islamophobia

Yet there is something that doesn't add up when it comes to Anne Verhoeven. She cosies up to Muslims and at the same time she funds Islamophobia. Who can make sense of this?

Ms Anne Verhoeven is said to be paying out 1,500 euros per week per person for at least some 25 years to a number of citizens who are required to practise hatred of Muslims to the very best of their ability

It was in the same way, with sums every week for 25 years and more, that wars are sustained in other countries by the same sponsor, amongst others who sponsors foreign legion fighters. She is the main shareholder of [Fresh Kampo](#), a fruit and vegetable company operating in various countries around the world, particularly [in the Occupied Territories of Palestine](#), in some parts of Mexico, the US and Morocco, and especially [in Western Sahara](#).

She will be very successful in getting hold of farmlands wiith HIV infections

Examples of people she sponsors to stir up hatred of Muslims include a German man named **Rolf Hauser** from Bonn, who receives **1,500 euros weekly** into an account in his real name at **Deutsche Bank** in **Hamburg**, which he opened on **21 October 2012**.

Based on transactions amounting to 1,500 euros per week, she is also said to be employing a Belgian in **Tournai** in this manner, named **Jef Van Houten**, with the sums going to an account in France, at **La Société Générale** in **Paris 13**, an account seemingly opened in **16 February 2001**.

The fact that these men are making money (in this way) is not the worst of it. Making money is not forbidden. The worst of it is the sexual enslavement of women from all over the world in order to pay out such high sums to these men, who do not know where Ms Anne Verhoeven gets all that money from. They ought to know. Perhaps they will change.

To this end, she is said to have transferred the sums from her own secret accounts to other secret accounts held by Belgians in Versailles (France). The secret account she holds is in the name of **Valerie Troisrivières** from Amiens at **La Société Générale** in **Paris 12**, which she opened on **17 February 2002** and in which she has currently saved **97,089,122.00 euros** to sow Islamophobia wherever possible.

The other account is in **Dresden** at **Deutsche Bank**, which she opened on **9 August 2000** under the name **Sofie Winterman** from Dresden. She is said to have filled that account with the proceeds from five windows of which she is the owner on the Reeperbahn in Hamburg (Germany). She is said to be hiding 101,988,752 euros in that account.

To do this, she needs girls from Thailand, the Philippines, Morocco, Jordan, Iran, Afghanistan and Mexico, but European women also fall prey to sexual exploitation. They followed the promise of a better-paid cleaning job, papers or a marriage. It turns out she has to sleep with men to earn a little bit of food.

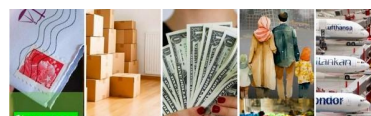

She is therefore a very dangerous woman, all the more so because she combines the upper rule-based echelons of business, [banking](#), international trade, stock market investments, the academic world, the world of employment and housing, as well as the social services with the lawless underworld of drugs, prostitution, human trafficking, murder and fraud. She is a living example of a two-faced person, but she doesn't realise it

The honourable

His Excellency

For HE Tony Murphy,

Ruslan Kravchenko, General Prosecutor of Ukraine: I was not anticipating ever having to deal with a influx of refugees on a scale similar to that of the Second World War, and particularly in a country like Belgium (français) (pdf)

Donald Trump, the President of the United States: Miss Anne Verhoeven's case shows how demands are met for terrorising the poor and the individual migrants to fulfil her personal luxury hotel projects in poor countries with social funds (pdf)

President of the European Court of Auditors: One reason for leaving Belgium is the way the Belgian social system relies on migrants and refugees being homeless, which leads to fundamental human rights violations and to poverty

You would never think she has anything to do with the world of crime. She studied law and uses this as a mask. She uses all these matters primarily against foreigners because she wants to achieve her colonial expansion by exploiting the social situation of this group. I myself have been her victim. I know one should not generalise; but when it comes to our safety, we must do so to better protect ourselves against hostility.

Prince Harry and Meghan, the Duke and Duchess of Sussex: We found evidence that Ms Anne Verhoeven subjected European women to sexual abuse

Her Excellency Madam Roberta Metsola, President of the European Parliament: Miss Anne Verhoeven would have killed the number two of the Camorra's trafficking network to take her place (español)

In that case, she would no longer be allowed into any Islamic country. She would not be permitted to hide money in any Islamic country under false identities. Nor should she fund Islamophobia on the one hand whilst sleeping with a Muslim on the other hand. This is one way how prostitution and colonisation are linked. It is not an advantage to allow and tax prostitution, because that business cannot be verified.

In Syria, they sold only one Schengen visa

In **Jordan**, they sold **27 Schengen visas** and **51 identity cards** from various countries such as **Hungary, Slovenia, Lithuania, Azerbaijan, Turkey, Bosnia** and **Serbia**, but most were for **Greece** and Jordan. The price for both was **2,100 USD**.

The individuals involved in this sale in Jordan are **Professor [Roland Willemys](#)**, Princess Jacqueline de Croÿ and Attorney Inès Wouters.

In **Syria**, they sold only **one Schengen visa** to the assistant to the mayor of Damascus, who is a woman. The price for that single visa was 1,250 USD

Insert photos

It was a quartet that travelled to Libya as part of the Urban Summit

Mr [Lucien Leuwenkroon](#) went as **Paul Vergauwen** from Hasselt (Belgium)

Professor **Jan Wouters of KU Leuven** traveled in his own name, and we appreciate that.

The quartet also included Messrs **Ayad Mohamed Ali Bouhamou** and **Alfons Nuyts**:

Mr [Alfons Nuyts](#) travelled as Mr **Désiré Clauwaert** from Mons (Belgium) and introduced himself as a property agent for the **Arab Bank in Geneva**, Switzerland.

Mr Ayad was also there as **Roger Hilton** from Las Vegas (USA); his profession was trader on the **NYSE (New York Stock Exchange)**. He opted for the fake American nationality, perhaps just in case he will be in trouble in that country, he expects to be protected by the American authorities against the Libyan resistance fighters, to appeal to the alleged impartiality or to security agents he can call upon in an emergency, such as some currently working at ICE to sell false documents to illegal workers in the US in order to rig President Trump's election. After all, we are talking here about a (fake) American, possibly like some who, via security firms, have managed to work for ICE.

He has carefully chosen his profile for maximum 'clout' and a guaranteed intervention by the US. What if he were a NYSE trader or a relative of the founders of the Hilton Hotel? It is, so to speak, to make the Libyans think twice, but the world no longer operates on the basis of inherited status, but on the basis of **merit**.

The world no longer runs on the basis of inherited status, but on the basis of merit, regardless of who you are. Belgium is lagging behind in this respect, with a system of state-funded discrimination, where policy is designed to guarantee inherited status without that status yielding any benefits, apart from the costs associated with hate campaigns. They think they are attracting capital, but this is at the expense of human capital and to the detriment of Belgian social capital, which is the main pillar on which the economy rests. There is no economy that relies on the status of a few families. The most important thing is that we do not want Morocco to become like Belgium in any way. If Belgium is content with that mentality, that is their problem, but Morocco must move forward.

So it is Belgium that needs to think twice

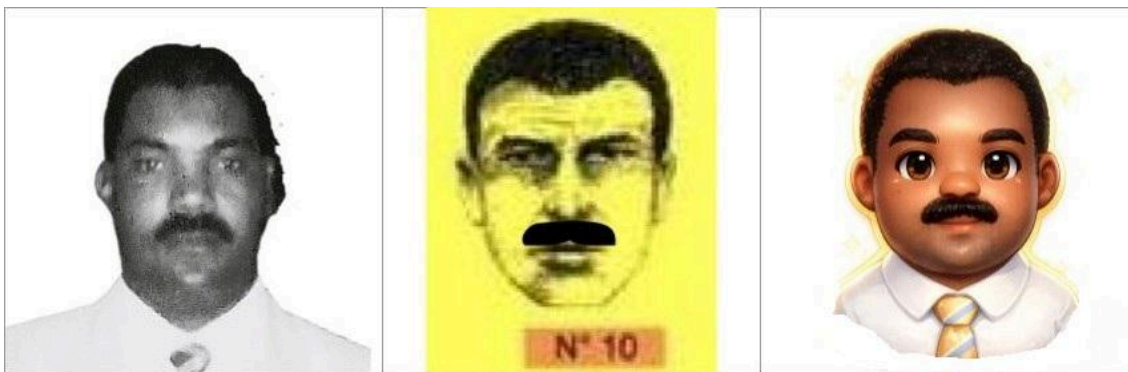

Now, the culprit who slit Gaddafi's throat in a single movement was **Ayad Mohamed Ali Bouhamou**, who currently lives in Casablanca.(Morocco). He was born in Tel Aviv as **Ziggy Weisz** to a Moroccan mother and a Belgian father named [Baron Guy de Wouters van](#)

[Oplinter](#), who was the principal shareholder and manager of [La Société Générale](#) in Paris. Ziggy Weisz was the product of one of the many rapes that took place in Benguéir.

(Public) Baron Guy de Wouters van Oplinter est mort depuis octobre 2015, mais est-ce que le Maroc a toujours encore peur de lui, ou quoi? (Nederlands - English)

Ziggy Weisz is therefore also known as **Félicien Paul de Wouters van Oplinter**, and his country of origin, as well as that of [La Société Générale](#), is **Belgium**. He was not alone. His accomplice was Mr [Alfons Nuyts](#), who was also involved in the case of **Saddam Hussein**. The hanging, which was filmed, is said to have been carried out by the so-called Ziggy Weisz together with [Alfons Nuyts](#). It may be possible to recognise their figures using modern targeted AI technology to analyse the photos and videos of the execution that were circulated around the world at the time.

Mr [Alfons Nuyts](#), who is nevertheless wanted in Libya for a whole series of crimes and robberies in the context of the Arab Spring in that country in 2011, set foot in Tripoli once again at the end of 2022, which was unwise, as photographs were taken and videos recorded during the ceremony for the presentation of Schengen visas for the Urban Summit and for the students, for whom this represented a huge step forward.

They travelled to the countries where they had waged and financed wars a decade earlier, during which major cities were destroyed, including schools and hospitals, and where they hoped to win contracts for the redevelopment of these major cities. Hence their interest in the Urban Summit, an opportunity to attract as many clients as possible.

However, in September 2023, in the context of the attacks on Brussels Airport, we discovered that there is a close link between the attacks and the tendering process for contracts in the construction and renovation sector.

This observation was made from an anthropological perspective regarding Belgian development cooperation policy, which on the one hand consists of destruction caused by terrorists labelled as Islamic jihadists, and, on the other hand, consists of innovative construction projects through which the Brabant killers prospects abroad to win major contracts, preferably relating to large-scale infrastructure with promises of employment, in order to acquire property.

The reason they opt for terrorism and why they pursue major construction projects is to launder money through the arms trade with weapons from FN in Herstal during the war and, after the war, through construction, money that is stashed in secret accounts under false identities in local banks, such as the proceeds from the sale of fake visas, fake passports, human trafficking, prostitution, adoption, etc. The final destination of that kind of money is Belgium.

(NL) The true motive behind the attacks on Brussels Airport was the construction of a new airport ***
(FR) The true motive behind the attacks on Brussels Airport is the construction of a new airport ***

(pub) His Excellency Joe Biden, President of the USA. The proceeds raised from racketeering are probably laundered through building construction and were perhaps the whole idea behind the 9/11 2001 attacks (español)

They put Belgian companies to work and buy building materials in Belgium. To achieve their desired profit margin, they cut costs on wages. To do this, [they bring in workers from very low-wage countries.](#)

If they do not achieve the profit margin they want, they murder a few workers in order to achieve that margin. [They dump the dead in mass graves and put themselves forward again for construction projects.](#) This is their economic policy in broad terms. This is the model they repeat everywhere, hence the high number of wars in the world. Yet, on the other hand, they keep the banks in Belgium afloat and ensure they are highly resilient to economic downturns and stock market crashes. These developments do not really affect the robust Belgian economy, which is underpinned by a very comprehensive social welfare system. It is a unique economy that has never received the attention it deserves.

His Excellency Donald Trump: The contract with the UNHCR should be reviewed, given that they functioned as a catering business for construction companies who participated in building or renovation of 9 football stadiums in Morocco. About 283 construction workers, all Africans, were killed and this went unreported. We want transparency (pdf) (MOU)

The ceremony for the presentation of the Schengen visas took place in a hall at the rectorate of **Al Rifaq University for Humanitarian and Applied Sciences** in Tripoli.

There, they sold a total of **89 Schengen visas** to prominent figures from **Tripoli, Sirte, Misrata, Benghazi, Tobruk and Sabha** for **1,600 USD each** for the Urban Summit.

Professor Jan Wouters used his own name for this trip for a specific reason, namely so that he could act as a point of reference in Belgium for 'studies and training' for North Africans in Europe, which could be of great interest to young people in Libya, for which they might be willing to leave their region and family. Jan Wouters is a bailiff at Modero, and he knows what he is doing.

Of course, we must not lose sight of his colleagues in the Nijvel gang, who pay far less attention to the law compared to Professor Jan Wouters of KU Leuven. Their aim with this programme is to empty the whole of Libya, to make those people migrate for another reason, if they have not already fled the war.

The gang achieves this goal partly by offering study opportunities abroad, and by the standard recruitment of migrant workers to work in sectors such as [construction](#). They also achieve this goal by eliminating the people who remain in all sorts of ways, such as train and bus and [car accidents](#), [plane crashes](#), floods, and sometimes even by executing them and dumping them in [mass graves](#), or by giving large sums of money to Libyans to work as suicide bombers, etc.

So, what initially appeared to be an offer from cultured and civilised people working for major banks, stock exchanges and universities, who pass on their civilisation to young students for the sake of improvement and progress, turns out to be a terrible catastrophe involving

murder, fire and unimaginable consequences that can only be brought about by unscrupulous primates, so that Professor Jan Wouters and his Nijvel gang, with their foreign legion, can seize the homes and lands of the Libyan students and their parents in order to expand the [NH Hotel](#) Group / Minor Hotels in this new country under the pretext that they bring investment, a source of income and jobs for Libya, whilst Muammar El Khaddafi succeeded in keeping this extremely hateful and dangerous group of people out of Libya. They have managed to infiltrate Tunisia and Egypt, so why not Libya? That is how the Brabant killers think.

Professor Jan Wouters used the Urban Summit contract to pursue a personal agenda in parallel by selling Schengen visas to young Libyans. For instance, **123 student visas** were sold at **1,000 USD each** to study at **Ghent University**.

Why doesn't he use KU Leuven, which is even more prestigious internationally? Could it be that he only wants the Muslims' money, and not their presence at his university? What is he looking for in Libya, then? Why can't he keep his feet at home? Of the 123 buyers, **78** were **young women**, and that says enough about what he was looking for in Libya.

He is looking for dancers to earn him money as student workers in cabarets. So that he can build large hotels on the beaches of Libya. If he recommends another university, it was to avoid getting a proper beating from the Libyans. That is why he spoke of Ghent University. His business model is so outdated that everyone there has already realised it.

What Professor Jan Wouters and his gang have been working towards is a strict ban in all Islamic countries on studying in Belgium, and Belgian qualifications being worthless in those countries. Anyone arriving from that country with a wife or husband loses their nationality because it constitutes a depletion of resources. The number of foreigners dependent on the OCMW is proof of that impoverishment. That is also the actual experience with Belgium. There is not a single country that is obliged to cooperate with Belgium, and [La Société Générale](#) has been trying for almost 200 years to change that by supposedly granting loans, but anyone who cooperates with [La Société Générale](#) deeply regrets it today

In Egypt, the Brabant killers sold **55 Schengen visas** and **90 identity cards** to officials in **Cairo, Alexandria, Hurghada, Suez and Aswan**.

The trip to Egypt took place in **November 2022**; **Maître Inès Wouters** was there as **Olga Dimitrov** from Sofia in Bulgaria. She set off with two bodyguards, namely Mr [Alfons Nuyts](#) and **Professor [Roland Willemyns](#)** of the Vrije Universiteit Brussel, who accompanied her to Egypt.

[Alfons Nuyts](#) was there under the name **Jean Favre** from Paris 13 in France.

The professor was there under the name **Lucien Vervloet** from Sint Joost ten Noode in Belgium (what job did they say they had?)

They were received by the then Minister for Housing, Utilities and Urban Communities. A female member of the cabinet went on a tour with this Belgian group to the other major cities.

90 identity cards were distributed to the 'happy few', including very wealthy individuals. The identity cards were mainly of Jordanian nationality and were sold to embassy staff, including those from Turkey, Syria, Libya and Lebanon. **The price was 1,100 USD.**

The officials had to pay in cash and handed over **1,750 USD** per visa in cash. All the money was therefore handed over in cash from hand to hand, which gives a very poor impression of Europeans who wish to convince Egypt of state-of-the-art technology and innovation, if they still intend to conduct business with coins and banknotes without involving the banks.

I do not think Egypt will be interested in further dealings with this group of people who believe that, given the way they conduct themselves, it is not obvious that they are actually from Belgium.

They put the cash in a diplomatic bag bearing the seal of the Turkish consulate in Hungary

The money then disappeared into an account held by Ms Inès Wouters under the name **Jozee Feuillet** from Amiens. This is an account she opened on **27 August 1987** at **Société Générale** in Paris. It currently holds **318,926,143.00 USD**.

The tour began on **2 December 2022** and ended on **12 December 2022**. They stayed at the **Kempinski Nile Hotel in Cairo**. They were deliberately accommodated in the exact same rooms in which they themselves had carried out [the horrific rapes on others and in which two Nigerian girls who had come there to complete their work placements were murdered](#), in order to confront them with their crimes. Something like that works on people of sound mind, but whether it has any effect on the Wouters of Oplinter is a big question. What does work is that they should have made their beds with the dead in them and locked them in that hotel room. That works better with people like that.

About the CEO of Hilton in Bahrain who handed out Schengen visas in the same way that CAW distributes food

In Bahrain too, fake visas were handed out to senior officials by **two Belgians**. It is said to have been **Attorney Inès Wouters** and **Mr Alfons Nuyts** who made the trip to rake in a quick buck to fill their bank ([La Société Générale](#)) with it.

Oil money is very attractive, and the people of the Gulf countries are no fools. They also read Forbes, Business Week, The Economist, they watch and listen to Bloomberg, they consult Moody's, Fitch and S&P, and are in constant contact with traders around the world.

They have the direct telephone numbers of the Forbes Top 500. They also have embassies and consulates in all the countries, and they deal with visa applications for entering their country in accordance with international rules. Their visas are not carried around by itinerant quacks who have absolutely nothing to do with any Foreign Ministry of any country. They applied for Schengen visas many times previous to the Urban Summit. They really do not need Belgium, and even less the Urban Summit in Brussels, because they already have ultra-modern cities. The boundless contempt that some Belgians have for Arabs and Muslims makes them fail to see where these countries are standing in comparison to Belgium.

Attorney Inès Wouters, who is, after all, a lawyer, surprisingly went as **Julia Wiggins** from Los Angeles. She would have introduced herself as the **CEO of Hilton Worldwide Holdings**. She would have given a matching business card and I am wondering about the phone number on that business card, whether she can be reached in the USA, if that number belongs to Hilton Worldwide Holdings or to someone else.

Mr Alfons Nuyts would have travelled as **James Wathers** from Baton Rouge and introduced himself as the personal assistant to the CEO of Hilton Worldwide Holdings.

Whether he can be efficient as a personal assistant is the big question, because I can testify that he cannot use a key board. He types with both his index fingers at a rate of maximum 5 words per minute. He is incapable of taking minutes on the computer in a live discussion. I don't think Hilton Hotels or even his own NH Hotel Group would be interested in him as an assistant to anybody apart from Attorney Inès Wouters.

They were received in Bahrain almost as heads of state by a representative of the former Minister for Spatial Planning

The trip lasted two days, from 18 to 20 April 2022. Everything had already been prepared in advance by His Excellency André Azoulay, the adviser to the Court of His Majesty the King of Morocco, who is counting on this human trafficker for Morocco's growth.

Apparently, he had organised everything to make more money available for investments by [La Société Générale](#), a bank very dear to him. That is how he works. He himself did not go along to Bahrein because he was only allowed to promote travel to Morocco, not to Brussels. We'll find him, the day everyone wants their money back.

It is thanks to him that the other two managed to sell **29 Schengen visas at 1,500 euros each**, whilst [the actual price is just under 100 euros](#).

(pub) The Magrexit Step by Step (français - Nederlands)

Iranian Visa Affair - Qatar Gate - Magrexit

Un demandeur âgé de 6 ans à moins de 12 ans paie 40 EUR et un demandeur de 12 ans et plus paie EUR.

This excerpt from the website of the Ministry of Interior indicates that **80 Euro** is the handling fee for non-Europeans above the age of 12. See close-up above or visit the website on this link:
<https://dofi.fiz.be/fr/themes/ressorlissants-dun-pays-tiers/court-sejour/demande-de-visa-dentree-dans-lespace-schengen>

How much did Mr Ali Reza Zarkani, the Mayor of Tehran pay for his visa and where did he collect it?

Depending on the price which the Mayor of Tehran paid for a visa to enter the European Union, we can figure out whether the visa was overpriced and that it exceeds the official tariff for visas for Belgium which is **80 Euro** for people from non-European countries.

Mr Alfons Nuyts had an extra suitcase and received the sums in cash, whilst Bahrain has the very latest technology when it comes to payments and money transfers.

Knowing Mr Alfons Nuyts, he is someone who probably doesn't even realise that despite the fact that it is a rich oil state, the average salary in that country hovers around 1,200 USD per month for an ordinary employee, that this is more than enough to live comfortably there because the State subsidises far more services and goods compared to Belgium, and that the cost of living is not high, to the extent that the majority of one's salary goes into the savings bank. Yet Alfons fails to realise that the fake visa costs more than one month's salary, an expense for the State of Bahrain that is smuggled abroad via [a diplomatic bag](#).

They spent a sum in cash in a single day equivalent to at least three years' salary. We might well ask ourselves who Mr Alfons Nuyts and Ms Inès Wouters intend to please with the

proceeds. That is the question the court should be asking these two Belgians. The total proceeds in a single day amounted to **34,800.00 USD**.

In addition to the 29 fake Schengen visas, the pair also sold **50 identity cards from European countries** to highly interested politicians and businesspeople in Bahrain. They had a choice between Dutch identity or nationality, and German and Czech identity cards.

Attorney Inès Wouters and Mr Alfons Nuyts could do nothing about the fact that there was such high demand. They sold the identity cards like hot cakes at **1,075.00 USD** each. This operation thus yielded **53,750.00 USD**.

Despite her name as Julia Wiggins, Inès could not help acting as the attorney she is in heart and soul. She took care of signing off on the approval and validity of the visa as if the application had been correctly completed by the applicant.

She brilliantly linked her fake visa scam to her so-called position as CEO of Hilton Worldwide Holdings by **offering hotel bookings** to ensure that Bahraini officials could attend the Urban Summit.

She thus took it upon herself to make **hotel reservations** for the nights of the **11th to the 15th of June 2023**, at **1,100.00 USD per night for 4 nights**, at the **Hilton International** and the **Conrad Hotel** in **Brussels** for the **29 members** of the delegation from Bahrain. This amounted to a total of **127,600.00 USD** for Ms Inès Wouters.

The Bahraini employee had to set aside **four months' salary** to be able to sleep in Brussels for four nights, as if the Urban Summit and the faces of its organisers were worth the trip. That Urban Summit cost half a year's salary for an employee in Bahrain. This is an outrage.

These are [the organisers of the Urban Summit](#):

This was merely the booking, but the big hotels do not operate like a youth hostel where the price of the offer is usually a fixed amount throughout the year, because most youth hostels (like the YMCA) are government subsidised. One can therefore make a booking and pay in advance for groups. The rest is purchased directly on site.

The major hotels collect the money after consumption and not before, because of individual consumption, for example from the minibar and room service, which varies for each customer and which the customer cannot decide in advance.

What 4 and 5 star hotels can decide in advance is a discount or a preferential rate, for which the visitor must enter a code to receive the discount, when he or she makes the reservation on his name.

The sum of **USD 127,600.00 is said to have been used as a guarantee for a number of rooms under** a single joint invoice with a 'start and end date' by which individual guests must book using a specific group code to benefit from the rate.

The group code may include the name 'Urban Summit'. For the Urban Summit, the conference's reputation is of great importance in planning such lucrative gatherings annually.

The question that can now be put to the Bahraini government is whether the hotel stays were paid for in advance, or did they have to pay for them individually afterwards?

It is possible that the delegations from the wealthy oil-producing countries paid for the hotel stays individually on arrival or on departure. Therefore, a reservation is guaranteed with a credit card and confirmed at check-in, followed by the final invoice with the final bill upon check-out. The relationship is built on trust. That is what Attorney Wouters attacked to cause damages to the reputation of a very good brand. She is herself a shareholder of NH Hotel Group / Minor Hotels and Kempinski Hotels, and this could be her way to compete against the Hilton Hotels.

It is possible that the visitors from Bahrain to the Hilton Hotel in Brussels were very surprised and that this left a bad impression on the Bahraini, all the more so because Ms Julia Wiggins, the CEO of Hilton Worldwide Holdings, along with her assistant Mr James Wathers were nowhere to be found after they have taken all the money during the distribution of the fake visa and fake identity cards.

Mr Alfons Nuyts (playing James Wathers, the assistant) handled only the financial matters, receiving the money and stowing it away in a briefcase, without saying a word like usual, to avoid that you can hear that he is not an American at all. He was fulfilling his role in a solemn manner, as if it were the real thing. **He was holding a diplomatic briefcase bearing the seal of the Spanish Embassy in Hamburg** (Germany).

They Use the Diplomatic Pouch for Sending Fake Passports Around the World (Français - espanõl - Nederlands)

It is possible they received assistance in Hamburg from contacts who collaborate with them in human trafficking, whether to bring girls from abroad to parade on the Reeperbahn wearing nothing but a thong, or to perform strange poses and movements on stage whilst under the influence to make a large group of men laugh, just as dancing monkeys make us all laugh, but that is the dignity that [La Société Générale](#) wishes to roll out across the world.

So something else has happened to the **USD 127,600.00** relating to the hotel bookings for the Urban Summit. The current war in the Middle East is perhaps intended to wipe out all traces of the Urban Summit by exterminating everyone involved, because, believe it or not, that is how they make money in Belgium.

Killing the clients is part of their business model so that no one would know how the Belgian gang manages to raise such large sums. By using the USD, it is also not clear that the sums originate from a Gulf state. For years I have been pushing for the use of the local currency first in all developing countries.

The large sums ultimately end up at [La Société Générale](#) via other banks in various countries. In this way, [La Société Générale](#) can lend money, particularly to developing countries, in order to find out everything about their affairs through that channel and sabotage them with terrorism, ultimately seizing other people's assets. That is what they are looking for.

In less than two days, they had smuggled a total of **216,150.00 USD** out of Bahrain in a fake diplomatic briefcase and made off for Prague in the Czech Republic. **This was not the largest haul they had made, but every little bit helps a major bank like [La Société Générale](#) to stay afloat.**

On their arrival in Prague, they deposited everything into an account at **Dexia Bank** in that city in the name of **Suzanne Vaubeux** from Cannes, who opened this account on **29 November 2000**. The current total is **106,541,776.00 euros**

Because he performed his role so brilliantly, Mr Alfons Nuyts received **250,000.00 euros** as a reward from **Suzanne Vaubeux**. This sum was paid into an account in France with **Crédit**

Lyonnais in **Lyon**, held in the name of **Jacques Sonville** from Le Mans. He has held the account since **28 January 2002**. The total amount in that account currently stands at **€93,154,871.00**.

The total amount raised in Bahrain was ultimately used to finance terrorist groups such as Hezbollah in Lebanon for [the purchase of weapons from FN in Herstal, in which the gang holds shares](#).

On FN Herstal Shares held by the Brabant Killers (Nederlands - français)

Regarding the Rector of MIT who had bought his university degree from KU Leuven to lure women from the wealthy oil states to Europe, ostensibly to 'study'

Kuwait was also in the gang's sights. To this end, they sent two seductresses to Kuwait. These were **Mrs Anne Verhoeven** and **Princess Jacqueline de Croy**. Their bodyguard was Professor **Roland Willemyns**.

Ms Anne Verhoeven went to Kuwait as **Anne Vondue** from Amiens, and she introduced herself as the chairwoman of **the UNHCR**. I don't think she was lying, because UNHCR is headquartered on avenue Louise in Brussels at the same address where Opal Trade is located. It is possible that she uses a male name so not to appear as the one who takes humanitarian aid for enriching herself and for paying foreign legion fighters in the Occupied Palestinian Territories.

Professor Roland Willemyns became Rector of the Massachusetts Institute of Technology (or MIT) in the US. He never actually undertook any university studies himself, as he bought a degree in Dutch linguistics or Germanic languages from KU Leuven for at least one million Belgian francs (when was that?). This purchase may have taken place around 1986, when [the Brabant killers transformed themselves into academics and businessmen to avoid detection](#). The one million Belgian francs likely came from the loot he had acquired during the shootings in Belgium, mainly on supermarkets like Delhaize and Colruyt. Perhaps that fake university degree from KU Leuven was the reason for the shootings for which no tangible explanation was found for si far.

He attended primary school and perhaps also secondary school to a small extent, under his real name, Vincent de Wouters van Oplinter. That is the name he was born with. He probably never obtained a secondary school certificate. Foreign legion fighters who worked for him reported that he attended a special needs school, and that he is mentally retarded and therefore extremely dangerous. He is a resentful savage individual who resorts to raping and killing woman and children. When it comes to the children, he kills them to drink their blood.

No pupil by the name of Roland Willemyns ever attended school in Belgium. So he could never have earned any marks or school grades under a name for which there is no record in primary education in Belgium.

The reason he chose 'Dutch' as a subject, rather than another subject such as 'History' or 'Economics, Accounting and Taxation' – which are country-specific – is possibly to suggest that he attended school as Roland Willemyns in the Netherlands, or in Suriname, or perhaps somewhere on an island such as Sint Maarten in the Netherlands Antilles, where he has never set foot. In this way, and with a great deal of corruption, he will always find an explanation to justify his false identity as Roland Willemyns.

He manages to pull this off with the Belgian people, who only believe their own kind, who need someone to lead them by the hand, and who only get worried when a foreigner says something.

He has far less success with this abroad, and certainly not with Arabs, such as the Moroccans. They will give him the impression that he can fool them and ensure that he shoots himself in the foot.

The Kuwaitis bought **111 Schengen visas** and **111 identity documents with European names** from this MIT rector, who has nothing better to do, **for their staff and, above all, to enable their students to study in Europe**. Why not at MIT in America, which is far more interesting? They have never come across anyone from MIT promoting study in Europe.

This answers the question we had posed in another document, in which we reported [the discovery of fake AI courses at MIT](#), which we suspected were intended to attract female students from the wealthy Gulf states with entirely different intentions, including rape and murder. In the past, there was a ban on Arab women travelling to Europe. This ban will have to be reinstated

HE Donald Trump, President of the USA: Animals, whether tame or wild, mark their territory with pee. Primates do the same and occupy other people's land (pdf) (MoU)

This inconsistency led to the realisation that they were actually being lured to Belgium with other intentions. 'Trafficking in women' is the field in which Professor Roland Willemyns has truly mastered his craft. The aim is to get the women pregnant so that, thanks to a child, they can lay claim to oil fields and obtain petroleum for free.

To turn Belgium into a superpower, they are attempting to do this with women from all countries, and naturally this leads to a great deal of tension and stress within the couple and between families. Who, as an adult, would want to discover that they have a brother or sister in a completely different part of the world? For most people, it would be a shock to discover they have family they never knew existed. The principle of a family is to build something together and pass that on to the next generation. It is this family principle that is being permanently destroyed, particularly through the use of false identities.

That is why I have advised Morocco to avoid Belgium until we are strong enough, until our people are sufficiently developed to stand up to this uncivilised group that seeks to keep its economy afloat through the prostitution of other peoples. How else are we to avoid this?

They are traitors because they make tempting promises which they do not keep, and do not expect the other person to become angry and disappointed, but they want you to accept this as 'normal'. The breakdown begins because the true purpose of the relationship soon becomes clear, especially as the same person from Belgium is involved in various relationships in different countries around the world, all under a false identity.

For example, we thought that Mr Mustapha Bouhamou had one child. We began investigating him following the murder of his wife, Mrs Halima Bouhamou. We discovered that he had five children elsewhere in the world and that he was born as Paul Félicien de Wouters van Oplinter, but was given a different name at his birth in Tel Aviv, namely Ziggy Weisz. It is possible that he was given the identity of someone who died during the Second World War in a concentration camp in Belgium, but he is unaware of this.

His behaviour runs counter to the established values of most civilisations and traditions, even those where polygamy is permitted for men or women. Even in those traditions, there is always a reference to the ancestors, to the land and to the people. One consequence of the haphazard attempts at colonial expansion is the spread of HIV/AIDS across the globe, which has already cost many governments billions, whilst the solution is very simple.

The 111 forged identity documents bearing European names consist of identity cards featuring the typical names associated with the nationality indicated on them, such as those of the United Kingdom, Luxembourg, Italy and Bulgaria

The price of the fake Schengen visas for the Urban Summit 2023 in Brussels and the fake identity cards was 2,000 USD each, and that in a country where no one would want to swap their Kuwaiti nationality for another. For them, 2,000 USD is nothing. That is why they also give them to those who apparently desperately need them. Who do you think is laughing the hardest?

The proceeds of the operation amounted to **444,000.00 USD and** were transferred to **Banco Ambrosiano in Rome** via the **Arab Bank in Kuwait**, a bank founded by Baron Charles de Wouters van Oplinter. The account at Banco Ambrosiano was in the name of **Laurent Du Poître** from Cherbourg (France), who opened this account in **1999**. This is a bank account belonging to Professor Roland Willemys.

I don't give a hoot about the Urban Summit. I am not impressed and I don't send my people to Brussels or to Belgium as a whole because of the high risk of HIV infection, food poisonings, being robbed, beaten, raped and killed because of hatred and jealousy, and the risk of arbitrary arrest and accusations of drug possession, of coming to Brussels with the intention to corrupt politicians and business people, and being jailed for month before their justice system concludes that there is no tangible proof. In this country, you are guilty until your innocence is proven.

The reason why fake visas were distributed to mayors and governors from Islamic countries was to have them all arrested in Brussels for forgery of Schengen visas, to imprison them and to request very large bail-outs to release them. It happened to me. This is why I don't recommend coming to Belgium or doing business with this country, because they will fail you. And that is how Jan Wouters' prosperity network will work out for you.

In the sixty years that I have been living in this country, I figured out one right attitude with these people, which is to have all the participants of all affected countries and sponsors request that get all their money back which was spent on the damned Urban Summit through a bailiff, within 72 hours or to face Justice in which every piece of evidence will be made public, such as the description of the sellers of the Schengen visas and their function, to open a man hunt, and to seize the properties they built with the proceeds from the sales of fake Schengen visas in foreign countries, **so that they will never try this again.**

When I was fed up with these people, [I lodged a complaint against them with the International Criminal Court](#). That's the best way for dealing with nasty racists. They will eat you, if you don't do it.

For The Honorable Mr Karim A.A. Khan, Chief Prosecutor: Where do these settlers in the Occupied Territories of Palestine suddenly come from? (pdf)

At your service.

I thank you greatly for your attention, Your Excellency Donald Trump, President of the USA.

Yours sincerely,

A handwritten signature in blue ink, appearing to read "N. Mouali".
